

MEN HIGH IN OFFICIAL LIFE ARE TO BE INDICTED BY GRAND JURY

SAN FRANCISCO, April 5.—Assistant District Attorney Heney today issued the following statement to the Associated Press: "Two more sessions of the Grand Jury will be required to finish the investigation of bribery charges in connection with the obtaining of franchises by the Home Telephone Company

of San Francisco and the Pacific States Telephone and Telegraph Company. The Grand Jury has under consideration five more indictments against high officials in connection with the Home Telephone affair and three more indictments against high officials in connection with the affairs of the rival company. It would not

be proper for me to say at this time that these eight indictments will be returned. I can merely say that they are being considered by Grand Jury at present." Mr. Heney said that instead of giving precedence to the United Railroads investigation next week the gas company affairs will first be probed by jurymen.

ROOSEVELT IN FAVOR OF ANOTHER TERM?

Wise Ones Say That the President Is Seeking to Secure the Nomination.

NEW YORK, April 5.—E. H. Harriman declines absolutely to talk about the report from Washington that Standard Oil and associated interests had raised a fund of \$5,000,000 to prevent the nomination for President of a man of President Roosevelt's choosing in 1908. The comment of Frank Q. Barstow, a Standard Oil director, on the story was: "It is simply absurd; that's all I have to say."

Mr. Harriman had a talk late yesterday with H. H. Rogers of the Standard Oil Company. He said at its conclusion that the conference was only about business matters which were not connected in any way with President Roosevelt.

PHILADELPHIA, April 5.—United States Senator Penrose had this to say today about the published report that he told at a dinner the story of a "rich men's conspiracy" to prevent the possibility of President Roosevelt's choice of a successor to him. "It is absolutely an untruth. I have never said such a thing. It is all untrue. I have always been a supporter and believer in President Roosevelt's administration and all its policies." The senator was asked:

PRESIDENT ROOSEVELT IS IN TRAINING FOR THIRD TERM?

NEW YORK, April 5.—Many of the Washington correspondents of the New York papers express the belief today that Roosevelt is ready to run again for President.

The Evening World says: "That President Roosevelt is laying his plans for a renomination for a third term in the White House is the inference of the smartest politicians in the country from his utterances and actions since the Harriman controversy began. He makes no secret of the fact that he believes there is a political war on and that the fight is directed against him. Those who know him believe he has convinced himself that he is the only man who can save the party."

"His declaration on the night of the election of 1904 that he would under no circumstances ever be a candidate for nomination for the Presidency again, was made under conditions that do not exist today. He has been assured by men in whom he has the utmost confidence that the people want him. The President firmly believes there has been a combination formed between the Rockefeller and Harriman interests for the purpose of dominating both the Republican and Democratic national conventions next year for the purpose of keeping down any candidate of either party who might pledge himself to carry out the Roosevelt program. President Roosevelt has declared to his intimates that he will not stand for nomination by Republicans of 'reactionary' tendencies."

The Evening Telegram's correspondent says the conviction is freely expressed at Washington that within a month Roosevelt will be a publicly accepted candidate for re-election.

The Evening Globe's correspondent says that for months Senators, Congressmen and other politicians have seen indication that Roosevelt was shaping things for another term. The Sun's Washington correspondent states that while Roosevelt has convinced those close to him that he will not accept another nomination, yet it is thought by political observers that he will do nothing to prevent the election of Roosevelt third-term delegates.

Other correspondents agree that Roosevelt may run again, but his decision may be delayed until the full effect of the Harriman controversy is ascertained.

CAME FROM IOWA TO KILL HIS DAUGHTER'S HUSBAND

Man's Presence of Mind Saved His Life—Slightly Wounded by Powder Burns.

ALAMEDA, April 5.—After traveling over 2000 miles to settle a family dispute with his son-in-law, C. J. Moorman made an unsuccessful attempt to end the life of R. C. Cheal, with a revolver this morning. Four years ago Cheal married Moorman's daughter and since that time he has had considerable trouble with her father.

Warned by letters that Moorman had left Cheerwater, Iowa, after declaring that he would kill his son-in-law, Cheal was prepared for him when he arrived this morning at the Cheal home, 457 Taylor avenue. Moorman is said to have become abusive later in the house and asked Cheal to step outside of the house to settle the difference that existed. Cheal had been warned that his father-in-law

JAPANESE QUESTION!

Says President of Columbia

PRESIDENT BUTLER OF COLUMBIA.

Professor Butler, Recent Guest at Berkeley, Declares That Stand Taken by California Is Right.

Special to OAKLAND TRIBUNE.

NEW YORK, April 5.—President Nicholas Murray Butler, President of the Columbia University, has come out with a strong statement in defense of the California stand on the Japanese school question. He says that he disagrees with the attitude taken by President Roosevelt and declares that there can hardly be two opinions, as to the advisability of admitting into the public schools Japanese students of the English language side, by side with little American children.

President Butler is said to have been largely influenced in his opinions on the Japanese question by President Wheeler of the University of California. He has only just returned from his honeymoon trip to the Pacific Coast, where he came much in contact with the head of the California State University.

"The California sentiment on the Japanese question has not been made entirely clear," said President Butler. "The whole school question about which recent discussion arose turned in reality upon the admission or exclusion of adult Japanese learning the English language side, by side with little children in the public schools."

As to the wisdom of this there can hardly be two opinions.

"The feeling against Japanese, which has been voiced largely by the Japanese and Korean Exclusion League, did not have a particularly creditable origin, but has been strengthened among certain classes who fear the Japanese as competitors. The more thoughtful Californians, however, believe the so-called problem of Oriental immigration can be more satisfactorily settled on national rather than on local lines, and thus conserve the best interests of the United States, and the dignity of the people of China and Japan themselves. The more violent expression in regard to this matter seem to be the least representative."

NEBRASKA SOLONS ARE FOR ROOSEVELT

LINCOLN, Neb., April 5.—The Senate today adopted a resolution endorsing the position of President Roosevelt in his controversy with E. H. Harriman and declaring the confidence of the State in the President's motives.

Boss So Explains Reasons for Visiting His Dentist in Company of Elisor.

SAN FRANCISCO, April 5.—Abraham Ruef did not remain at home today as usual when not before the court which is trying him for extortion. He did not go for a walk, but was driven, with Elisor Biggy as a companion, to a dentist's office, where he intended to have some repairs made upon his teeth. As he was entering the automobile he was asked by the TRIBUNE correspondent if his teeth and become dull

by masticating suckling and toothless turkeys which he had requested Elisor Biggy to include in his bill of fare, and replied: "No, my teeth have not been dulled by eating suckling turkeys, but they have been wonderfully broken in trying to masticate the 'savory' steaks which Elisor Biggy has been furnishing to me."

This remark was made in a sardonic manner and both Ruef and Biggy laughed heartily over it.

DEATH FOLLOWS IN THE PATH OF THIS CYCLONE

Number of People, Including the Inmates of Insane Asylum, Are Reported Killed.

NEW ORLEANS, April 5.—A special from Bayou Sara, Louisiana, reports much serious damage in West Feliciana parish as a result of a tornado that swept over that section of the state early today. Many negroes are reported killed.

ALEXANDRIA, La., April 5.—Several persons were killed, many injured and a hundred factories, stores and dwellings totally wrecked or partially damaged by a cyclone that passed over Alexandria after midnight today. The dead, whose bodies have so far been recovered from the debris are: N. I. Dunn, John Breck, Couvillion, White, and Rose Dudley. Thirteen persons, some of them fatally injured, had been taken to the hospital early today. The city power plant, the Alexandria Ice and Cold Storage plant and many mills and factories were wrecked or partially wrecked.

The tornado damaged an area extending from three miles above this city to Pine Woods, several miles below here on Red river. Reports from the surrounding country tell of property damage and loss of life. The list of dead is growing and a great many are injured. All the buildings in the path of the tornado were destroyed and those upon the outskirts were badly damaged. The wind was accompanied by a heavy rain and hail.

A number of passenger coaches in the yards of the Iron Mountain railroad were swept off the tracks and heavy pieces of wreckage were blown entirely through some of the coaches.

DEPOT DESTROYED. HATTISBURG, Miss., April 5.—A tornado passed over Carson, Miss., 38 miles west of here, upon the Mississippi Central railroad, early today, destroying the railroad depot and other buildings. No loss of life has been reported.

ASYLUM WRECKED. NEW ORLEANS, April 5.—A dis-

patch from Jackson, La., says a tornado swept through that town this morning, wrecking the State insane asylum and killing three of the inmates. Several residences are also reported to have been destroyed. Miss M. Lee, a young woman, is said to have been among those killed. Telegraphic communication is poor. Jackson is in West Feliciana Parish.

LIST OF DEAD.

The revised list of the dead made at noon follows: OMER BECK, white, carpenter. MATTHEW DUNN, white, carpenter. ORA DUDLEY and LYDIA HARRINGTON, both colored. Seventeen injured are now in the hospital. Among the most seriously hurt are: Mrs. L. P. Couvillion and her son, Mrs. Omer Beck, Mrs. Frank Mertins, Mrs. Matthew Dunn and three negro men.

ROOSEVELT TRAINING FOR ANOTHER TERM?

Wise Ones Say That the President Is Flirting With the Republican Nomination.

(Continued From Page One.)

"Have you ever heard of a \$5,000,000 fund to prevent President Roosevelt naming his successor?"

NO COMBINATION.

"No, absolutely not."

"Have you ever heard of the combination termed the 'rich men's conspiracy' to thwart the President in the development of his policies?"

"No, I have never heard of any such combination and have no knowledge of it."

"Did you attend a dinner of such a character as was mentioned today in the Washington dispatches?"

"No, I never attended a dinner where such a subject was discussed. I could not have done so anyhow, for I just came back from the West Indian cruise with Secretary Metcalf and Senator Flint of California."

"I arrived in Philadelphia on Tuesday night after a month's trip. During that time I did not follow the newspapers or keep in touch with affairs in the United States."

WASHINGTON, April 5.—Further details of the alleged plot entered into by Hearst, Harriman, Rockefeller and all the Standard Oil interests to defeat Roosevelt and more particularly Roosevelt's ideas by capturing the next Republican National Convention, are forthcoming at the White House.

That the conspiracy has been exposed and nipped in the bud is due entirely to the fact that one of the men, said to be a big Eastern Senator, drank rather too freely at a dinner when the plans were discussed and talked quite freely afterward.

FIVE MILLION WAR FUND.

They have raised a fund of \$5,000,000 to buy votes, newspapers, influence and send the next National Convention delegates who will ostensibly be for Roosevelt for another term or for "favorite sons," but when Roosevelt refuses, as he will do, to accept the nomination, they will turn to some selected reactionary, possibly Parker, who, if elected, will proceed to nullify as far as possible all of Roosevelt's policies and reforms, instituted and in contemplation of the President, and while he merely laughed when first he was told of it, he has had it whispered into his ear so often and from so many different sources, that he has at length become convinced that the wicked men of Wall street are in deadly earnest about capturing the convention with the aid of a Trojan horse.

HOW THE PLOT LEAKED.

A final bit of testimony came from the conspirators' own camp. They gave a dinner a few days ago in this city and asked to it a man whom they wished to win over. Before they made sure of his conversion, Senator Boies Penrose, it is said, boasted of the plot and the vast fund available to crush the President. He said he himself would deliver Pennsylvania's sixty-eight delegates for Knox, Foraker is to deliver Ohio, and Harriman New York. It is expected that the other favorite delegation will be instructed as follows: Indiana, for Fairbanks; Illinois, Cannon; Massachusetts, Cramer; Wisconsin, La Follette; Iowa, Shaw.

TWO WASH.

With these states pledged on the first ballot, no contest would be possible. If the choice of the other states went to Roosevelt, there would not be votes enough to nominate, and if there were, he would be relied on to reject the nomination. "Which Foraker or some other safe 'conservative' could be put up."

PLANS OF THE PRESIDENT.

But the President, while retreating his intention to refuse the nomination even should it be thrust on him by a packed convention, declares that he intends now to follow the fighting and defeat his enemy at his own game. As he learns more about plans of conspirators he intends to make them known to the public which he considers the surest way to defeat them.

"The President has always talked frankly about men and measures, but since the Harriman episode he has discussed his enemies with a degree of bluntness that has simply taken away the breath of those in whom he has confided. The President evidently is under the impression that it is time for the country to know certain secrets of the past and he wants the newspapers to publish them broadcast."

THE FEELING IN WASHINGTON.

IS STRONG THAT THESE ATTACKS UPON THE PRESIDENT WILL INEVITABLY RESULT IN FORCING HIM AGAIN TO BE A CANDIDATE. MUCH DEPENDS UPON THE OUTCOME OF THE FIGHT IN OHIO. THAT WILL DETERMINE LARGE-LY, JUST WHAT PROGRESS HAS BEEN MADE BY THE CONSPIRATORS.

NEW YORK, April 5.—Frank W. Hill was arrested yesterday in the office of De Coppet & Doremus, brokers of 42 Broadway, charged with making public without authority the correspondence between Edward H. Harriman and Senator Boies Penrose, in which Harriman asserts that President Roosevelt asked him to raise for the national campaign of 1904 the sum of \$500,000.

Hill was taken to the office of Assistant District Attorney Krotel, where, after a severe cross-examination and the submission of documentary proof to him, he made a complete confession and alleged that he had sold the accusing letter to the New York World for a stipulated sum of money. He was then locked up for the night without bail.

He declined to say how much money he got, and was reticent as to whether he had been induced to publish the correspondence of Harriman by enemies of the latter or persons interested in making known the relations between President Roosevelt and Harriman as set out in the letter to Webster.

Hill was arrested under Section 542 of the penal code, 1904, which it is

PAYING DEAR FOR OUTBREAK

Stackpole On Way for Life Sentence and Berne Gets Eight Years.

LOS ANGELES, April 5.—Manacled and under guard of two heavily armed deputies, Ernest O. Stackpole, convicted murderer of Joel Schack and one of the trio who made a desperate attempt to break jail Wednesday, was taken from his cell in the county jail last night and started north to serve his life term in San Quentin.

Stackpole was in jail under a temporary stay of execution of the judgment against him, pending action on his appeal for a new trial. After his attempt to break jail Sheriff Hammel laid the facts before Judge James, who made the original order, and the order was forthwith revoked, and the sentence of life imprisonment to begin at once without any further stay of execution.

SENT TO FOLSOM.

Frank Berne, another of the trio who made the attempt to break jail and was shot in the hand by Jailer Norrell, today pleaded guilty to the charge of burglary against him, and was sentenced to eight years at Folsom. Berne, who is 27 years of age, has previously served a two-year sentence at San Quentin for robbery of boxes of telephone stations.

Folsom, the negro and Irish man in the conspiracy to break jail, will be tried on the charges of burglary against him May 2.

STATE LAWS PROHIBIT WHERE FEDERAL LAW DON'T

Strong Defense of Mr. Harriman's Railroad Operations Made to Interstate Commission.

WASHINGTON, April 5.—Continuing his argument today before the Interstate Commerce Commission in support of the legality of Mr. Harriman's railroad operations, Attorney John G. Milburn laid down the following general principle: "A restraint of trade, to be within the anti-trust act, must be the direct, immediate and necessary effect of the transaction, and not merely an indirect or incidental result."

2.—A restraint of trade consequent upon any purchase of property, in any of its various forms is incidental merely and therefore not within the act.

3.—The purchase must, of course, be real; if a mere device for the suppression of competition, and not in any way in contravention of the anti-trust law. He said that if the laws of a State by which the Union Pacific was chartered had prohibited such a purchase it could not have been legitimately made, but in no event could the federal anti-trust law be held applicable.

He contended that the main purpose of the purchases had to be gain a through line from Omaha to San Francisco and declared that there had been no subterfuge about, or hidden motive in the deal. It had been a bona fide purchase and could not be criticized as a business transaction from any point of view. Having no purpose of preventing competition, it did not fall within the meaning of the Sherman law.

Calling attention to the fact that Mr. Harriman's purchase of Southern Pacific of a line of railway, made at the same time as his purchase of the Northern Pacific stock, Commissioner Lane suggested that the two transactions might indicate a purpose to control competition in trans-continental business, the two transactions being independent and separate.

4.—If, however, the purchase by a railroad company, within its corporate powers, of a line of railway, made to suppress competition, be obnoxious to the act, that result does not follow if the purchase be made for a legitimate and proper purpose by the purchasing company.

5.—Therefore, a purchase by a railroad company of an interest in a line of railway which is not parallel and competing is not within the act.

6.—The purchase by the Union Pacific of its interest in the Southern Pacific was not made to suppress competition, but to protect its property by an extension of its line in that way to the Pacific coast.

7.—The Union Pacific and Southern Pacific are not parallel or competing lines or systems.

This summary proved to be the outline of his entire speech and he followed the presentation of those points with an elaboration of them, giving special attention to the contention that the purchase of the Southern Pacific by the Union Pacific was a legitimate business transaction and not in any way in contravention of the anti-trust law. He said that if the laws of a State by which the Union Pacific was chartered had prohibited such a purchase it could not have been legitimately made, but in no event could the federal anti-trust law be held applicable.

He contended that the main purpose of the purchases had to be gain a through line from Omaha to San Francisco and declared that there had been no subterfuge about, or hidden motive in the deal. It had been a bona fide purchase and could not be criticized as a business transaction from any point of view. Having no purpose of preventing competition, it did not fall within the meaning of the Sherman law.

Calling attention to the fact that Mr. Harriman's purchase of Southern Pacific of a line of railway, made at the same time as his purchase of the Northern Pacific stock, Commissioner Lane suggested that the two transactions might indicate a purpose to control competition in trans-continental business, the two transactions being independent and separate.

MONEY OFFERS FOR STRIKERS

Longshoremen and Sailors Offer \$7000 to Girls of the Laundry.

Offers of assistance have been made the striking laundry workers by many other unions, is the statement given out this morning by Miss May Hampton, president of the local laundry union. At the meeting today a representative of the longshoremen's union offered to turn over to the girls the sum of \$5,000 if it should be needed. An offer of \$2,000 was received from the sailors' union of San Francisco.

Miss Hampton volunteered the assertion that if the strike continued much longer the laundries would not be able to get enough hands to operate the plants to their full capacity. She said already half the strikers had left for other parts of the State or had entered other occupations. Thirty or forty of the striking French hands have secured passage back to their home country.

Mr. Grey, the business manager and secretary of the union, said this morning: "The same really firm that offered us a building for our proposed plant in exchange for stock in the concern has offered us \$10,000 to accept this additional offer as we intend that the members of the union shall in any case own the controlling interest in the laundries."

The employers will hold another meeting in San Francisco tonight. It is possible that measures will be adopted in an effort to bring the strike to an early end. Developments are looked for next week.

"HE OUGHT TO BE DEAD"

At least that is what his doctor said. His name is Dr. Fairchild, and he lives in English Center, Pa. He had Bright's Disease and is not well yet. The situation is as follows:

An examination was made by a physician, whom he reports is "the best doctor in the city of Williamsport," on the fifth day of July of last year. Fairchild was in a bad fix and his doctor confirmed it. He didn't lose much time with digitalis, nitro glycerine, iron tonics, etc., but promptly changed to Fulton's Renal Compound. He took another sample to the same physician on the twenty-first day of February. He does not say what the latter told him it contained this last time. He simply reports the doctor as saying: "According to the examination on the fifth day of July I ought to be dead by this time. But I am looking a good way from a dead man now."

He states he still has some pains in the kidneys and is writing for some advice.

We last week told in these columns how the case of a young lady in Quincy, Mass., was turned towards recovery after the doctors had given her up. The physician, F. S. Roney, heard that the Owl Drug Co. had a specific for Bright's Disease and wrote for an immediate shipment of C. O. D. The Owl Drug Co. handed us the letter and we wired Roney where to get the compound in Boston, for we knew that day was dangerous for the physician. We gave the family no hope. Roney sent to the address directed in Boston, procured Fulton's Renal Compound, and put the patient on it. The next day (March 18th) he wrote us that "the patient is now so far on the road to recovery that her mother, Mrs. Libby, was recommending the compound to others."

As the last U. S. census shows that out of every 100 persons dying from kidney trouble there are 15 who have Bright's Disease, how in the name of conscience can people with kidney trouble afford to take anything but Fulton's Renal Compound? It is the only known specific for Bright's Disease! How can druggists, in view of these established facts, afford to give their fellow men the common preparations of Buchu, acetate of potash, etc., etc., that are known to be impotent in Bright's Disease, and are so declared by physicians and text books?

For kidney disease get Fulton's Renal Compound, \$1.00 at druggists. For Dialysis ask for Fulton's Dialysis Compound, \$2.50. Free literature mailed on application. Address John J. Fulton Co., 5510 San Pablo Ave., Oakland, Cal.

BADLY BURNED IN EXPLOSION

Engineer in Sheet Metal Works Blown Up by Bursting Steam Pipe.

SAN FRANCISCO, April 5.—Harry Brown of 1201 Octavia street, an employee of the California Sheet Metal Works, was severely burned about the face and shoulders in an explosion of one of the furnaces of the plant, shortly after 3 o'clock this morning. Brown is employed as an engineer at the works and was regulating some of the mechanism of the steam registering apparatus at the time of the explosion.

He was taken to the Central Emergency Hospital for treatment. The flames were confined to the immediate vicinity of the explosion and the damage to the plant by fire was slight.

PANIC ON A STREET CAR

SAN FRANCISCO, April 5.—There was a panic among the passengers on car No. 728 of the McAllister street line, this morning, when the vehicle left the tracks while rushing down Turk street, between Polk and Larkin streets. The car struck a pile of building material and its progress was stopped.

Donald Eggleston, residing at 1822 McAllister street, was seriously injured and had to be removed to his home in an ambulance. Many other passengers, among them women, were painfully hurt, being thrown about the car when it plunged from the tracks.

NO DECISION RENDERED BY COURT ON RUEF'S PETITION

His Counsel Visited Supreme Court Chambers This Morning, but Could Learn Nothing.

SAN FRANCISCO, April 5.—It was expected this morning that the Supreme Court would hand down a decision as to whether or not it would grant a writ of habeas corpus in response to the petition of Abraham Ruef which was filed for that purpose on Monday of this week. Attorney Shortridge of counsel for Ruef went to the Supreme Court for the purpose of making inquiry as to the action of that body, but was informed that no action had been taken by the court.

In response to a question from THE TRIBUNE correspondent, Attorney Shortridge said that he did not know as to when the court would hand down the decision. He had hoped that the matter would be acted upon early, but said there was no recourse except to await the pleasure and convenience of the justices.

MUST PAY THE NEW DEPUTIES

Judge Ogden Holds New County Government Act Is Constitutional.

In the test case made of the new county government act passed by the last Legislature, Superior Judge F. B. Ogden ruled this morning that it was quite constitutional and made an order to the effect that the writ of mandate asked for by Deputy County Clerk Francis Thompson be issued against County Auditor George S. Pierce to make him grant the warrant by which the new deputy will receive his salary.

When the act was passed several new deputies were added to the staff of the county clerk, but they were all elected by the voters. The question was whether the new clerk's salary district attorney J. Brown has gone into Superior Court and Superior Court decisions of similar cases and found that the law applied in this case could not be refused. Attorney George W. Reed represented Thompson.

"It is good business judgment in this case," said Judge Ogden from the bench. "If you go to any business house in Oakland since April 15 last year you will find that the force of clerks has increased twofold and in many cases threefold. Three deputy county clerks were appointed under the new law. Thompson was included by the statute as an index clerk with a salary of \$1000 a year. He was on this position that the contest was raised. Now that the Superior Court has handed down its decision, it is clear that other new appointments can present their warrants to the auditor."

District Attorney Brown has consulted with many other district attorneys throughout the State and found that in most all counties the custom has been observed previous to the passing of the county government act.

FORMS PLOT TO KILL DAUGHTER'S HUSBAND

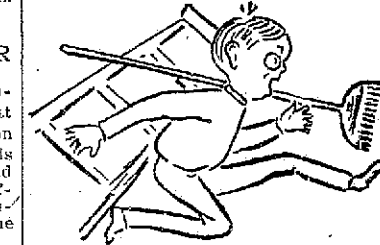

(Continued From Page 1.)

When Detective Waghorn was sent to find the man, he found he had disappeared.

Moorman is said to reside with a family named Cheal at 1824 Twelfth street, Oakland. The Oakland police have been asked to apprehend him. Cheal was very reticent about giving any information regarding the trouble that led to the shooting. He said that he had been warned that his father-in-law had left Iowa with the intention of killing him, and that he was prepared for the attack this morning. He said that some family difference which he would not mention seemed to play on Moorman's mind and that he believed him to be insane.

Since Cheal married Moorman's daughter four years ago, his father-in-law has often threatened to kill him, and Cheal said that he had received a number of threatening letters.

SAN FRANCISCO, April 5.—Rumer has it that Patrick Calahan of the United Railroads, has obtained the controlling interest in the California Street railway company, having purchased most of the stock. The transaction is not discussed generally, and it is said that one of the provisions of the sale is that the terms of the deal shall be kept secret for a time.

Move Everything Into the Second-hand Shop

Yesterday when I was moving, my landlady told me to put up some curtains. I told her the best way was to put them up for auction, and she said she thought so too. Moving is a pack of trouble. I think the best way to move is to move everything into the second hand shop and buy something new. It's just the same way in the clothing business. If you buy good clothes you don't feel like taking them to the second-hand shop, you feel so comfortable in them. When you buy, buy at C. J. Heeseeman's. Every garment in the house has a guarantee on it and that guarantee is sure because it's spelt

SECURE HALL FOR BANQUET

Chamber of Commerce Can Now Go Ahead and Committees Are Working Hard.

At the meeting of the banquet committee of the Chamber of Commerce, Messrs. B. P. Miller, F. A. Leach Jr. and E. A. Horton were appointed a committee on music. The committee have been in a quandary as to where to hold the banquet on May 1, as the minimum number of seats has been set at one thousand and only the skating rinks are of sufficient size to seat so many.

To use the rinks would necessitate closing the rink to the public for an entire day. The John Breuner Company, learning that the committee were in sore straits for a hall, yesterday sent to the committee the following letter:

"F. W. Bilger, Esq., President Chamber of Commerce, Oakland, Cal.
"Dear Sir:—Having just learned that you are having some difficulty in obtaining a building of suitable size for the annual banquet of the Chamber of Commerce, we beg to advise that we have our old store, located at Twelfth and Harrison streets, size 10x400 feet, which we tender to you for use for your annual banquet.
"We realize that you will have a large attendance and as we are interested enough in the matter to see that you have a building suitable and large enough, we will be pleased to let you have the use of the building without any cost or charge.
"Yours very truly,
"JOHN BREUNER CO.,
"By O. F. Olsen." (signed)

The committee visited the Breuner building and found it would accommodate the caterer and the guests far better than any hall and so accepted the kindly offer.

Among the speakers will be Governor Gillett, Senator Perkins, Congressman Knowland, Ex-Governor Pardee and Mayor Mott. "Looking Ahead" has been selected as the subject for speakers to juggle with.

A quarterly meeting of members of the chamber will be held on Wednesday evening, April 17, having been postponed one evening so as to not interfere with the banquet of the Merchants Exchange. On April 17, 1908, the theme of the chamber were formally dedicated and the next morning—the shake-up awakened Oaklanders in more than one sense.

NEW CHARTER FOR CITY OF OAKLAND IS NEEDED

Mayor Mott and Others Express Views Regarding Government of Town—Salaries Must Be Raised.

"As it is well known the present charter was adopted November 6, 1888, and was sufficient for the needs of the city at that time. Since then the city has grown many times larger, thereby necessitating an increase in the departments and they naturally require a more comprehensive management and control.

"Under a constitutional amendment adopted by the people at the last general election, cities are now empowered to substitute new charters, and inasmuch as our city charter needs revision in so many particulars to bring it up to date and make it serviceable for the growing needs of our city, my judgment is that we should take steps to have an entirely new charter prepared."—Extract from Mayor Mott's annual message.

In bringing to the front the question of a new charter for this city, Mayor Mott struck the keynote that has been sounded in the city hall, and among leading business men, for many months. There should be a new charter is shown in many ways daily, the one under which the city is being governed is entirely inadequate for its needs.

This is seen in no place more fully than in the city hall, where there are frequently matters coming up that call for opinions from the city attorney relating to actions to be followed in settling the question. Deputy City Attorney O'Brien says a new form of government for Oakland city is absolutely necessary. New commissions must be formed and their duties outlined. Salaries must be raised of heads of departments and all branches of the city government overhauled.

SALARY RAISED.

"At the meeting of the city council last Monday night, the salary of the mayor's clerk was raised to \$150 a month," said the salary of the city clerk, street superintendent, and other officers at the head of several of the departments are fixed by the charter at \$125 a month, and this sum cannot be raised. This is all wrong. I do not criticize the council in giving the mayor's clerk \$150, that is a fair compensation for the work of the office, but I simply show the difference in the salary given one man who does not come under the charter, and heads of departments, who do. The work in the offices of all of the charter heads of departments has increased greatly, and is now many times greater than when the charter was adopted. There should be a change, so the men will receive salaries as high as those paid in other cities of the size of Oakland."

MUCH NEEDED.

Secretary Edwin Stearns, of the Chamber of Commerce says: "Oakland certainly needs a new charter, one commensurate with the needs of the

city. Here we have a city with approximately a population of 250,000 inhabitants, doing business under a charter that was used when the city was a place with about 40,000 people. Clothing worn by a child will not fit the youth, and those worn by the youth will not fit a full-grown man, and the same can be said of a city's charter. Oakland has been too long satisfied with things as they are. The only way in which to get the best from the growth here now and coming in the future is to prepare for it.

"In our new charter we must have a new class of police, fire, water and harbor commissions. We have the finest harbor in the world and this alone is something that makes it necessary to prepare for its protection. I believe in the referendum, and would like to have it incorporated in the new charter. Let all commissions be appointed by the mayor, confirmed by the council, or board of aldermen, which ever name is given to the legislative body, then the best men in the city will be placed on these commissions. The mayor would be responsible to the people and council for his appointments and he would give the best men possible to be secured for the work.

ELECTION NECESSARY.

"I would like to have an election called as soon as possible for the election of a board of freeholders, these to be selected from the ranks of the best business men, comprising representatives from all principal lines of business, artisans, and professional men. The laboring man should be represented, because he is greatly interested in the city in which he makes his home. This should be done as soon as possible, so the board of freeholders may have ample time to frame a charter, submit it to the people, and have it ratified to be in readiness for the next legislature."

MOTT IN EARNEST.

Mayor Mott is in earnest relative to a new charter. It is one of his great hobbies, and he is anxious to have one prepared, submitted to the people, ratified and made the city government law at the next term of the State legislature. This will give Oakland the new government inside of two years, and in the term of the present chief executive of the city. It is hoped that a board of freeholders will be chosen that will be broad-minded, liberal, clear-sighted, and will build to the future, as well as the present needs of the city. Many of the ordinances now in the charter are obsolete and a detriment to the city. In the new charter the framers should carefully consider every detail of a city's government and give to the people one that will combine the best provisions found in charters from other cities of the size or larger than Oakland, together with sections covering questions that may arise by reason of the importance Oakland is sure to hold in the destinies of the west and Pacific coast.

NO MONEY TO PAVE STREETS

Reason Given by Councilmen for Postponing Paving San Pablo Avenue.

From the auditing and finance committee of the council last night, Ben O. Johnson, representing the San Pablo-avenue improvement club, asked that in view of the fact that the council intended to pave San Pablo avenue the property-owners hoped and asked that the council would help the club in this work.

When asked what the approximate cost would be, Mr. Johnson replied that it would be between \$8 and \$9 a front foot. The distance between Seventeenth and Thirty-sixth streets was about 5000 feet. The property-owners were willing to pay one-half of the cost.

Chairman Pendleton said the club came before the council at a bad time. It was the close of the fiscal year and the city was facing a deficit.

C. E. Snook also explained the needs of the street. Councilman Ellsworth granted the needs of San Pablo avenue, but he could not see his way clear to put the city in debt at this time. He suggested that an ordinance might be passed having the paving started and the first draft on the treasury to be made after the first of the next year.

Mr. Pendleton thought the question of increasing the police force, fire department and other departments was more urgent than that it would be unwise to obligate the city for the San Pablo avenue paving. There must be more income, and he thought it would be better to wait until it was known how much money would be on hand next year.

Mr. Ellsworth said the only way to do this work was to take it out of next year's appropriation. Councilman Ellsworth said all the San Pablo-avenue improvement club asked was a promise that the work would be done when next year's appropriation was made.

Mr. Pendleton did not care to make this promise until he knew how much money the city could spare on next year. The cost of the work would be about \$50,000, making the city obligated for \$25,000. Other streets must be cared for as well as the one asking for help. Pendleton was not willing to place himself on record as being in favor of having the council make a promise to pave San Pablo avenue until the city was in a position to do so.

Mr. Johnson said that Emeryville, Berkeley, railroad company and electric lighting companies were in heart with the work.

Finally it was arranged that the club should prepare plans and submit figures of cost, and then the council would act.

MORE SALOONS ARE LICENSED

New Applications Are Presented to Council Committee and Several Granted.

When the license committee of the council met last night, Chief Wilson reported that there were three hundred and sixteen licensed saloons in the city of Oakland, forty of these being restaurants.

Renewal of applications for licenses were granted. These numbered seven, and had the recommendation of the license collector.

The first application came from Aroney Brothers, owners of the Coney Island restaurant, 903 Broadway, between Eighth and Ninth streets. Councilman Encous opposed granting the license, saying that there had been considerable trouble and fighting in the place on account of liquor served there which was brought in from an adjoining saloon. The license was recommended after a vote of 10 to 2, that no bar should be run in the restaurant.

Applications for liquor licenses were recommended granted as follows: El Fung Company, 315½ Webster street, and E. W. Guffing, 313 San Pablo avenue.

Business Men!

A Word of Logic

No one knows what next season's styles are going to be—They are not out yet—Nevertheless, factories filled with hot irons and sewing machines are turning out tons of clothing for the coming winter.

Our tailors are busy making clever garments for immediate wear—copying the styles you will see on Fifth Avenue and Broadway—reproducing the models that highest-priced tailors are now making—building up by thousands of hand stitches clever garments that will retain their beauty, character and shape to the end of their time—These are the suits we are selling for \$15.

Suits Hand Tailored \$15 Throughout

In point of excellence and style they are not to be compared with machine-sewed, factory-made clothes; and in point of variety we show ten styles where other stores show one.

These suits are made in our own workrooms, 707-709 Broadway, New York, and are sold direct to you. We save you the middleman's profits—fully one-third on each suit.

GRADE OF '90 FOR BROADWAY

Ordinance for Work From 19th Street to City Recommended by Committee.

When the ordinance and judiciary committee met last night the protest against "Chinatown guides" was read. The ordinance licensing them was laid on the table without action.

The ordinance establishing the grade on Broadway from the southern line of Nineteenth street to the northern boundary of the city of Oakland as it existed in 1890 was approved.

The ordinance changing the name of Fourteenth avenue to Commerce boulevard was referred to the Board of Public Works to be included in a general ordinance to be submitted changing street names.

HELP NEEDED FOR AUDITOR

Council Committee Favor Ordinance Granting Four More Deputies.

Initiative of their first meeting the first council committee called to order last night was the Auditing and Finance Committee, and this was done at 8 o'clock sharp with three members present. Approval of the demands against the city were passed over by the members.

A recommendation that an appropriation of \$350 for the purpose of purchasing book books for a record of street numbers, and the work of numbering transferred from street department to the board of public works, was made.

Chairman Pendleton stated that he had asked the Auditor to give the finance committee a statement of the financial condition of the several funds and was told it would be given next week.

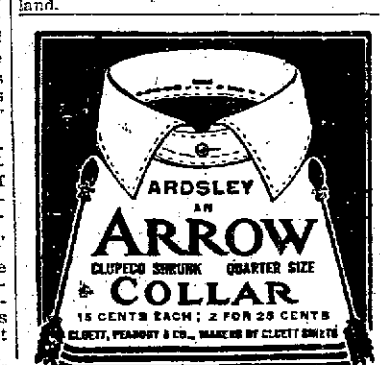

The ordinance appointing deputies

asked for by the Auditor and Assessor was approved. Assessor Gross said the help was absolutely necessary as work in the office was behind at this time, and help must be had. This means two deputy assessors at salaries of \$150 a month; one deputy assessor at \$125 a month and one deputy auditor at \$125 a month.

The petition of A. J. Anderson for the return of \$4 paid the postmaster was referred to President Elliott for report.

STREET WORK UP IN COUNCIL

Closing of Certain Thoroughfares Is Recommended by City Attorney.

Before the Street Committee last night, the report of the City Attorney was read, relative to the closing of Main and Diamond streets. He said that only a suit at law can settle the title. The streets are now fenced up by the city claims title to a street of regular width. The action suggested by the City Attorney was recommended by the committee.

A petition was read for a sidewalk on Fourth street, between East Eleventh and East Twentieth streets and was passed one week. SHIP'S COOKS FACE CHARGES

Two Members of Pennsylvania's Crew in Jail Accused of Deadly Assault.

When Hugh Walthew and John Nixon, two cooks on the old transport Pennsylvania, had a heated argument over their salaries as artists in the ship's galley John Stavis, the ship's carpenter took a hand in the debate to separate the pair. The cooks considered this an invasion in their department of the vessel and without further notice of the cooking dispute, the members of the steward's crew turned upon Stavis. The carpenter claims that Walthew and Nixon beat him over the head with a monkey wrench and shovel causing serious wounds. Stavis went to the court of Justice of the Peace Quinn and swore to a warrant for the arrest of his two alleged assailants. Constables Lane and Hempshead made the arrest at Long Wharf. Walthew and Nixon are held in the county jail in default of \$2000 bail. They will have a hearing in the justice's court.

BEGIN SUIT IN CONDEMNATION

Central California Railway Endeavoring to Obtain Land on Line of Cut-off.

In a condemnation suit, filed yesterday by the Central California Railway Company, the court is asked to place the value on a strip of land, 380 feet long between Niles and Center-ville. The property belongs to Rosalia Rogondez et al. This is one of the many suits for right of way, instituted against property owners in that part of the county and is on the line of the proposed cut-off road, the Southern Pacific and Central California Railway intend to cut across the bay by the way of Dumbarton Point. When the new road is completed, the heavy freight traffic in the West Oakland yards will be greatly relieved.

OAKLAND MINISTER IS INTERESTED

FRESNO, April 5.—Rev J. A. Bachelder of Oakland has called a meeting of the general educational board of the Methodist Episcopal church, South, to be held April 10th in Fresno to consider the offer of forty acres of land made by A. R. Smith of this city as a site for the prospective university. It is proposed by the church to erect a non-sectarian preparatory and collegiate institution in some California city. The main administration building will cost \$50,000 and the two dormitories \$25,000 each. The university has a \$200,000 endowment to start with.

LEAGUE FOR THE PURPOSE OF PROTECTING THE WATER FRONT OF OAKLAND AGAINST POSSIBLE CLAIMANTS AND PRIVATE CORPORATIONS

The Committee of Progress will have the good will and hearty support of many prominent citizens. At last night's meeting of the executive committee of this body it was announced that the Harbor League should effect organization as is at present assured, would first employ legal aid and take proper steps to see that the harbor "rights" were not infringed upon.

"Oakland harbor for Oakland" is the slogan of the enthusiasts who are backing the proposed league. It is probable that to retain the water front privileges for the city an appeal will be made favoring the securing of a bond issue. The same feeling as heretofore exists towards the possibilities of a harbor commission being appointed at some future legislative session and every effort will be put forth by the league to defeat any such measure.
M. B. Greensfelder, chairman of the Harbor Committee of the Committee of Progress, reported that the formation of the Harbor League was progressing nicely. Letters are being sent to each of the members of the Progress Club, and to each one of the men who have affixed their signatures to the petition which was recently sent to the Legislature, and in fact to all the improvement clubs in this locality, stating the nature of the proposed organization and asking them if they wish to join in the league.
Before adjournment, M. B. Curtis chairman of the Theatrical Committee, announced that he had engaged the MacDonough Theater for the evening of Saturday, April 20th, and had arranged for an elaborate program.
The "Posen" will be the presentation and the cast will consist of disengaged members of the Alcazar Company of San Francisco. Miss Georgia Woodthorpe and Miss Edith Cooper will also take part in the performance.

Oakland's Conveniences for Travelers

An erroneous impression is general that through tickets on the leading railway and steamship lines cannot be purchased in Oakland. Hence many people desiring to cross the continent or sail for Europe or the Orient go to San Francisco to procure tickets, when they can get them here without taking that trouble.

Mr. F. A. Rigdon, city passenger agent of the Santa Fe Railroad, informs THE TRIBUNE that tickets to all parts of the world at regular or tourist rates, can be purchased in Oakland on exactly the same terms that they are sold elsewhere. Passage by rail or steamer to any part of the globe can be procured at the offices of the Santa Fe, Southern Pacific, Denver & Rio Grande, Union Pacific, Rock Island and other large systems. All the principal railway systems in America maintain offices in Oakland, and the great steamer lines of the Atlantic also have agencies here.

This was not so a few years ago. The city has grown so rapidly and developed so suddenly as a trade and travel center that even many of its inhabitants are yet unaware that tickets over any of the great lines of rail or water travel, either in America, Europe or Asia, can be had as easily here as in New York, San Francisco or Chicago. The traveler to the Holy Land can buy his tickets in Oakland just as well as not. If he desires to go to Europe by way of New York, Boston, Montreal, Baltimore, New Orleans he can secure passage in this city without trouble. It is the same with regard to passage to South America or the Orient. Inquiry at any of the local railroad offices will prove this to be true.

As a matter of policy and local pride, Oaklanders desiring to go abroad should buy their tickets here. By doing so they assist in giving importance to the town. For the same reason Oaklanders should make it a point to buy their stamps at the Oakland post-office and mail their letters here. During a recent local campaign in this city many circulars were mailed in San Francisco and paid postage to the San Francisco postoffice. When we were trying to get an appropriation for a postoffice, one of the chief obstacles was the practice, acquired many years ago and clung to as a habit, that Oaklanders were addicted to of buying stamps and mailing their correspondence in San Francisco.

As a matter of business and self-interest they should buy their railway and steamship tickets as well as their stamps in the city in which they live. That is a practical way of building up the town and advertising its importance. Every ticket sold here is an advertisement for Oakland.

The display of straw hats in the show windows is a stinging rebuke to the clerk of the weather.

The Southern Railroad recently paid a North Carolina white woman \$3500 damages for compelling her to ride in a coach set apart for Negroes. How much would be paid in damages to a colored woman compelled to ride in a coach set apart for white people?

Oh yes the Smoot case is settled but the women are still having the last word about it. That is their privilege.

A Mischievous Political Canard.

It is probably true that the heads of the great railway systems are hostile to the President politically. It would be strange if they were not. He has led a crusade of strenuous vigor and not a little bitterness against them and the interests they represent. Going out of his way to punish politically men supposed to be friendly to the railroads. But there is no verisimilitude in the Washington story, said to have been inspired from the White House to the effect that the multi-millionaire railroad managers had formed a blind political pool and raised a fund of \$5,000,000 to fight Roosevelt and his policies. A coalition of that kind could not be long kept secret, and knowledge of its existence would intensify and vastly embitter the popular antagonism to railway corporations that has exerted a controlling influence on public sentiment ever since Roosevelt succeeded to the Presidency. There is no surer way of making Roosevelt a third-term candidate than a plutocratic combination formed to overthrow him politically and reverse the domestic policies he has inaugurated.

But if no coalition of millionaires has been formed and no \$5,000,000 campaign fund raised, what then? The story to that effect would assume the aspect of a canard invented to further intensify popular feeling against the railroads. It is shrewdly designed to make the dear public believe the people's idol is the victim of plutocratic conspiracy and spur them on to demand him to run for a third term despite his repeated and emphatic refusal to be a candidate again.

Should Mr. Roosevelt alter his determination and be a candidate for another term, his renomination would be a foregone conclusion. In that event the campaign would meet with personalities. The "Dear Maria" letters, the Roosevelt-Whitney correspondence and the recent epistolary interchange between the President and E. H. Harriman would be exploited from various points of view to arouse prejudice and stir the masses. The part played by the apocryphal Monroe letter in Jackson's time, Clay's letter regarding the annexation of Texas, the forged letter of the Garfield-Hancock campaign and the Mulligan letters that blasted Blaine's hopes in 1884 would be eclipsed in interest by the letters written by Mr. Roosevelt or to him since his accession to the Presidency.

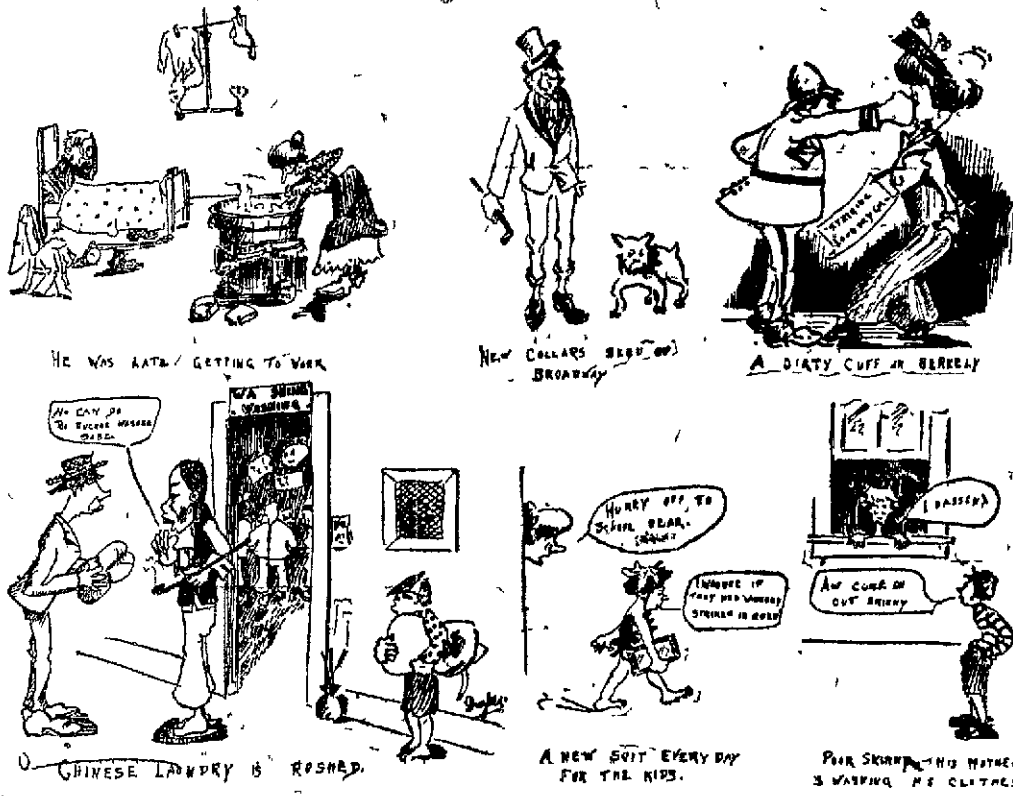

It is to be hoped the country will be spared the infliction. A campaign calculated to impeach the moral integrity of a popular and useful President and cast discredit on the Presidential office would be regrettable in the extreme, and it is doing Mr. Roosevelt a poor service to deliberately invite such a campaign to anger the President into becoming a third-term candidate.

Now that Thaw has been acquitted of insanity, there seems nothing for the jury to do but to find him guilty of murder. The executioner will comply with the other formalities.

The weather continues to be clear, cold and cloudy with intervals of sunshine and rain. We seem to be getting our glorious climate in all sorts all at once—mud in the gutters, dust in the center of the street and chill winds from the south.

The striking miners in the Nevada mining camps will gain little sympathy by marching around behind the red flag and shouting, "To hell with the constitution." The American people have small love for anarchists and traitors.

THE PRESENT SITUATION IN THE LAUNDRY STRIKE.

How Political Issues Are Made.

Some Democratic papers declare that the Bourbons, when they meet in national convention, should make States' rights the issue in the coming Presidential campaign. Mr. Cleveland suggests that the railroad agitation should be dropped as a "delirium" and the tariff taken up as an issue.

But issues are not made by resolution, nor sorted out of a scrap heap by politicians. Circumstances and events make issues, and parties are judged by the way they declare themselves thereon. The people then render a decision.

In spite of the efforts of politicians of all parties, circumstances and such events as the Dred Scott decision, the border war in Kansas and the John Brown raid made slavery the overshadowing issue in the campaign of 1860. Circumstances and events, again, made reconstruction and the preservation of the fruits of the Civil War the issue in 1868. The misgovernment and rottenness of the carpet bag regime in the South presented the dominating issues in 1876.

No decisive issue was presented in the campaigns of 1880 and 1884 hence the elections in those years were in the nature of drawn battles. Mr. Cleveland made the tariff the issue in 1888 by his unexpected assault on the protective system.

In 1896 the issue was the coinage question, forced to the fore by circumstances, and in 1900 it was expansion, for the same reason and in 1904 trusts and corporation abuses called for a decision. In each case there was much shuffling to evade the real issue or obscure it with the stock issues of parties, but in every instance the issue forced itself and compelled a verdict.

The issue for 1908 will be presented by the logic of circumstance, and it can neither be avoided nor turned aside. It is said that Cleveland forced the tariff issue in 1888 in order to forestall the silver question which he saw looming up darkly on the horizon, but even admitting the prescience and sagacity claimed for him, the fact remains that his tariff message made the issue by rallying the friends of protection solidly to the Republican banner to resist an attack. Had there been no assault on the tariff there would have been no dominant issue in the campaign.

At this time party lines were never so weak and issues so insistent and compelling. In choosing a candidate to succeed Mr. Roosevelt the Republicans will take their stand before the country either for a return to conservatism or a continuance of radicalism. The Democrats will declare for reaction or ultra-radicalism as events may determine, but the issue will force itself regardless of the respective attitudes of the opposing parties or conventional declarations on other questions of public policy.

THE CITY LIFE VERSUS THE COUNTRY.

The injurious effect of city life consists not merely in overcrowding or the increased development of infectious diseases, but especially in the outrageous and abominable overworking of the laboring classes. Overwork and underfeeding have been recognized for half a century as the chief causes of the large death-rate of the laboring classes as compared with the well-to-do. Even with all the improvements that have been effected in the condition of the laboring classes, the last United States census (1900) still shows the highest death-rate among them of any "earning" class—20.2 per thousand. Farmers came next with 17.6, as compared with mercantile and trading classes at 12.1 per thousand, and clerical and official at 13.6. Thus laborers have a death-rate sixty-six per cent higher than that of business men, and farmers forty-five per cent higher. Overwork and overcrowding are alike responsible for the frightful tribute paid by these same classes to the Great White Plague. The improvement that occurs in most of our hospitals in patients of the laboring classes, who are not suffering from some injury or acute disease, simply from being put at rest in a well-ventilated room and given a moderate amount of nourishing food, is really astonishing. It is an open secret that in most of the chronic diseases brought to our hospitals in the large cities it makes little or no difference what medicine is given during the first week or ten days, the patients will improve on any medicine or on none at all.—Woods Hutchinson, M. D., in Harper's.

PRIZES GLOVES AND HOSE

BEST ARM SHOW IS DRAWING BEAUTY

A visit to a photograph gallery is a dreaded ordeal, if the camera is to be faced, according to sundry letters that have come to Phidias since the opening of the best-arm show. Here is a reference to the perturbation that is paramount in some breasts at the mere idea of posing for a picture:

"I do so want a nice likeness of myself, but must confess I am scared at the idea of entering a strange place to get my picture taken. I haven't been photographed since I was a little girl, and I think I had more confidence in my own self then than I have now. It is too bad one can't look into a mirror which will make a lasting reflection of the countenance, etc., just as a photograph does. My arms and shoulders are said to be as handsome as if they were part of some Italian marble statue, but really it is going to be hard work for me to muster up resolution enough to use the Shaw & Shaw order I had you send to me." Such is a portion of the confession made by a Berkeley lady.

To all hesitating subscribers to the best-arm appeal, and to every one who is inclined to volunteer as a candidate for the prize award, but feels diffident, not because of scruples, but for the reason stated in the aforesaid epistle, Phidias will impart this stimulus: At the Shaw & Shaw studio you will be welcomed quickly. There are several young lady assistants there who are skilled in the art of making callers lose their timidity. You will find no trouble in putting yourself in preparation for the "exposure," for toilet, aids will be deftly introduced to your notice, and privacy will be accorded you. The minute you have

chosen your pose (and the artist will help with hints), the camera will be adroitly operated and, presto! the mission is effected.

Phidias counsels you to take an extra waist or two along, or, instead, carry with you to the studio some draping material. Of course, if you attire yourself specially for the trip, after the model of a domino at a "bal masque," you can wear, underneath wraps, just the waist you fancy favors.

"I took particular heed at Ye Liberty Theater last night," writes an Oakland matron to Phidias, "of something that struck me as odd. Between the acts various people were poring over evening papers—all TRIBUNES, presumably, and some

ladies who were quite near me were engaged in reading your arm-contest recital. So I calculate your journey is proving to be a decided hit."

Those who are of the mind to join as recruits of the exposition of arms should proceed to transmit hither a photo displaying contour from shoulder to fingertips; and if that record of personal beauty is not at hand, why address "Phidias, editorial department, OAKLAND TRIBUNE," saying you desire a free Shaw & Shaw order. For the most lovely arm in Alameda county, represented in this competition, the acknowledgment will be one dozen pairs of silken hose, and for the most original, daintiest pose the guerdon will be a box of gloves. Phidias would like to hear from you before noon tomorrow.

JUST ONE LITTLE CUSS WORD COST HER \$30,000

Mrs. Howard Gould's Row With Architect

NEW YORK, April 4.—For just one little "damn" the Howard Goulds must pay \$30,000. Even for millionaires this is expensive "cussing."

According to court records the Goulds are paying the \$30,000 to Abner J. Haydel, the architect who designed their Long Island home, Castle Gould, "for services rendered."

But those who know the inside of the case all agree that even though Mrs. Gould took out of his hands the task of duplicating Kilkenny Castle, he probably would not have sued had she not been so vehement in the memorable interview in the Waldorf-Astoria Hotel, when she referred to him as the "damned architect."

The Court of Appeals now has confirmed the judgment which Haydel secured in two lower courts during a contest of more than two years.

Mrs. Gould went on the stand during the trial, was asked if she had used the awful word "damn" to her architect. She replied, in a tone of voice that showed great indignation:

"On my oath, I never used such language on that night or on any other night."

MOTHER DISOWNS GIRL WHIP FOR VANDERBILT

Parents Believe Romance Played Part

NORFOLK, Va., April 5.—"So far as we are concerned, she is absolutely dead to us. We have done all we could to make something of her, but all our efforts have been futile. She went away with the Vanderbilts without our consent. She has brought us nothing but trouble, and we are through with her. She is a very wayward girl."

It is thus that Mrs. Pownatan Schenck, wife of Dr. Pownatan S. Schenck, chairman of the city Democratic executive committee of Norfolk, and one of the most prominent citizens of the city, recently arraigned her daughter, Florence Schenck, who ran away from home with Mr. and Mrs. Alfred Vanderbilt and their party when they were visiting the Norfolk Horse Show last October.

Miss Schenck will be a whip for Vanderbilt in the International Horse Show, to be held in the London Olympia in June. In an interview in a New York paper she referred to her father as the "late" Dr. Schenck. He is very much alive.

NEGRESSES BEAT WOMAN IN PHILADELPHIA HOME

Plucky Housewife Finally Conquers Them

PHILADELPHIA, April 5.—Another contribution to the servant-girl problem was made recently at the fashionable boarding-house, 1321 Spruce street. Mrs. Sylvia Holt, proprietress of the place, remarked that in more ways than one it was the darker side of that eternal question.

Mrs. Holt had her arm bandaged, covering deep scratches. These scratches had been inflicted on her by two mutinous servants, who had attempted to turn the house upside down, and who were fought off by plucky Mrs. Holt until the police came. The two domestics, both negroes and each weighing about 200 pounds, burst into Mrs. Holt's home with tempers at white heat. One of the women, Cora Eva Jones, had been employed by Mrs. Holt until Monday night. The other, Anastasia Johnson, worked in the neighborhood.

WHITES OF EYES.

She told Mrs. Holt bluntly that she came to see that her friend Cora got what she wanted. Then she bared two big, black arms to the elbows and showed the whites of her eyes.

"What do you want, Cora?" asked the unperturbed Mrs. Holt, ignoring the bulky Anastasia.

"I want my money," said Cora. "That's what she does," put in Anastasia, and she showed two rows of big white teeth.

"There's no money coming to you, Cora," said Mrs. Holt, "and I would like you to turn over the keys."

To avoid noise of an altercation in the hall the determined woman then walked out to the kitchen. Cora and Anastasia followed her. Then Cora rolled up her sleeves like Anastasia. When the two women passed the kitchen door Mrs. Holt stretched her

"Cora, you cannot leave the house until you hand over the keys."

LOCKS WOMEN UP.

At that both servants sprang at the woman, both trying to get her by the hair. She fought them off bravely, maneuvered until they were in a corner of the kitchen, and then, before they could prevent it, she darted out of the kitchen and locked the door.

While Cora and Anastasia were trying to force the door Mrs. Holt ran around to the rear of the house and locked the kitchen door leading to the yard. With her opponents thus bottled up, Mrs. Holt then telephoned for a policeman.

Enraged on finding themselves caught, Cora and Anastasia proceeded to smash things in the kitchen. A big pan of rice pudding went flying through the kitchen window. It was followed by a line of pots, pans and dishes.

Each crash was accompanied by a shout of triumph.

When the cupboard was emptied stove plates flew out. Both women were demolishing the gas range when the policeman arrived. Then they surrendered, but in the excitement of the arrest Anastasia managed to escape.

Cora was taken to the Fifteenth and Locust streets station.

Like most brave women, Mrs. Holt is forgiving. When Cora handed over the keys her former employer withdrew the charge of assault and battery which she had preferred, and Cora was discharged by Magistrate Rooney.

"You're lucky," he said to the servant, "and you're plucky, madame," he added to Mrs. Holt.

Arms across it and said quietly:

COWBOY LONGS TO WED GIRL WITH NEAT SUM

Youth Asks Postmaster to Help Find Her

PHILADELPHIA, April 5.—Some says she has \$4452 and wants to get married. I wish you would find out her name, and also if she has as much money as she claims to have. In case you find her, she'll want a description of me, so I send it. I am 38 years old, have brown hair and blue eyes; I am 5 feet 8 inches tall, and weigh 115 pounds.

The picture inclosed by Wallace is that of a very pretty brunette, about 30 years old. Judging from the printed matter on the back, the picture was torn from a matrimonial paper published in Bridgeton, N. J. Under the

cut was this alluring caption: "I am a young widow of 30; light brown hair and blue-gray eyes; I weigh 154 pounds, and am of shapely form; have fair, rosy complexion, good health and an affectionate disposition. I have \$4452 now, and will inherit \$10,000."

At last he wrote about the lovely lady to the Postmaster of Philadelphia, asking the latter to find her. Wallace thought a woman of such charms would be known by everybody. His letter read:

"Please find me the woman who corresponds with this picture. She

married. I wish you would find out her name, and also if she has as much money as she claims to have. In case you find her, she'll want a description of me, so I send it. I am 38 years old, have brown hair and blue eyes; I am 5 feet 8 inches tall, and weigh 115 pounds."

The picture inclosed by Wallace is that of a very pretty brunette, about 30 years old. Judging from the printed matter on the back, the picture was torn from a matrimonial paper published in Bridgeton, N. J. Under the

cut was this alluring caption: "I am a young widow of 30; light brown hair and blue-gray eyes; I weigh 154 pounds, and am of shapely form; have fair, rosy complexion, good health and an affectionate disposition. I have \$4452 now, and will inherit \$10,000."

At last he wrote about the lovely lady to the Postmaster of Philadelphia, asking the latter to find her. Wallace thought a woman of such charms would be known by everybody. His letter read:

ONE PLACE WHERE WOMEN CAN GAMBLE "DECENTLY"

Palm Beach Law Favors Fairer Sex

At Palm Beach alone in all America can women gamble "decently"; that is, not simply play bridge but roulette and such in temples dedicated particularly to chance. One must dwell on such dreadful sin hereabout, since how can we claim a Riviera without a Monte Carlo? The Florida Legislature allows it, for a proper price, and in proper hypocrisy the place is called the "Palm Beach Club." run by two brothers well known to the New York tenderloin and several disreputable attorneys. Election to membership is extremely difficult. The qualifications are a dinner coat and an acquaintance who

has buckled the wheel in the "club" at least once before. Enter with him, sign your name and his to a slip of paper and receive a yellow "membership" ticket, "not transferable," "to be shown when requested," bearing the autograph of the clerk at the desk. A book of by-laws tossed at you provides, among much Hoyle, "No gentleman under 25 years will be admitted to this club." Article III, section 3, regarding evening dress, will be waived in the case of members taking their departure on evening trains.—Robert Dunn in Outing for March.

TELEPHONE COMES HANDY BOTH IN LOVE AND IN WAR

Stenographer Teaching This to Grocer

PITTSBURG, April 5.—Maggie Howard, a pretty stenographer, asserts that Joseph Poarch, a grocer with a big store, made love to her over the telephone, occupying most of her time. Finally he proposed by wire, the electric current and other waves carrying back to him the much-desired "yes." Then Miss Maggie resigned, and made ready for the wedding.

"Maggie, I am married. We are having a party to-night, come down, I want you to meet my wife."

The grocer was still doing business on the phone, and this was the startling message he flashed one day to his former sweetheart.

Miss Maggie Howard got angry, also busy with a lawyer, with the result that she filed a suit for \$5000 for breach of promise of marriage.

"That you, Joe?" came a feminine voice over the wire next day. "Yes," replied Mr. Poarch, not recognizing his ex-divinity.

"This is Maggie; you're sued; good day," and with a laugh and a saucy smile Miss Howard hung up the receiver.

DETWEILER BLAMES IT ON RUEF, LIKE ALL THE REST

Paid Money to Curly Boss as Attorney Fees--Ready to Appear When He Is Ready.

TOLEDO, O., April 5.—"When the grand jury at San Francisco adjourns and all of its indictments are reported, A. K. Detweiler will give himself up. He will wait until he knows absolutely every indictment that will be brought against him. He does not intend to evade arrest, and has no fear that bond will not be furnished."

Such was the statement made last night by a relative of Detweiler, who has been in communication with him since the indictments were returned. That Detweiler is not in this part of the country was emphatically stated by this relative, who, for obvious reasons, will not allow his name to be used at this time.

"Abo is at least 1000 miles away from Toledo," he said. "There is no use in looking for him near the city. He is not alone. He is traveling with a companion, and at the proper time will give himself up to the authorities."

He has been in communication with him lately, and he has told me that he has done nothing for which he can be held liable. He declares he is not guilty of wrong doing, and he will be able to show that at his trial. His dealings were entirely with Attorney Ruef. Any money that was paid was paid for attorney's fees. What Ruef did with the money, later, was no concern of Detweiler's."

The fact that this relative has been in communication with Detweiler since his disappearance from the city was substantiated by others who were aware of the nature of the communication.

CAPITALIST SUED.
A. K. Detweiler was made the defendant in a \$20,000 suit here yesterday. D. J. Kable is the plaintiff in the action and sues for money alleged to be due for services in the securing of a foothold for Detweiler in the telephone business of California. Kable alleges that he secured inside information regarding the promoters of the Independent Telephone Company of Los Angeles, and also secured a controlling interest in the construction company which was to build the plant for the new telephone company.

He claims that he has never received one penny for this work, and he wants \$20,000. The service was performed between October 15, 1931, and June 1, 1932, and Kable says he has good reason to believe that, through his instrumentality, Detweiler cleaned up close to \$800,000.

Kable was acquainted with the men on the inside, and this was the reason that Detweiler secured him to open up the way. Kable is the senior member of one of the leading law firms of Lima, and is well known here.

BURNS IMPATIENT.
SAN FRANCISCO, April 5.—Special Agent Burns has announced that so far as the continued absence of A. K. Detweiler is concerned, patience has been exhausted. He has notified the man's relatives in Toledo that unless Mr. Detweiler submits gracefully to arrest very soon he will have his men hunt him up and that when they find him they will not grant courtesy will be shown the man. He declares that Detweiler can be caught within a week. It was Burns who not long ago also said that he had Mr. Detweiler located in Egypt and that his arrest was only the question of an hour or so.

Since their Mr. Detweiler has been known to have been not only to his home in Pittsburgh, but also in New York and several other places.

MURDER NOW OPINION OF SAN FRANCISCO POLICE
Detectives Believe Man Who Was Found Dead in Pool of Blood Was Killed Intentionally.

SAN FRANCISCO, April 5.—E. J. Cosgrove, the stevedore who was found lying dead in a pool of blood with two bullet holes in his side in the waiting-room of the Cross Lumber Company, at the foot of Dupont street, yesterday morning, was a victim of a deliberate murder and was not shot for a night prowler as was at first supposed.

Although the detective department is putting forth every effort to discover the whereabouts of John Pera, the night watchman, whom they accuse of the crime, he is still at large and is thought to have gone to sea.

It has developed that Pera had a recent quarrel with the dead man. It has also developed that Pera could not have shot Cosgrove by mistake, believing him to be a suspicious character, as the men have been sleeping in the waiting-room of the lumber company for the last week and that this fact was known by the watchman.

NEAR HIS VICTIM.
The murderer stood within twelve feet of his victim when he fired the fatal shots. Footprints in the soft earth show that Cosgrove was followed about 500 feet by the man who shot him. The distinct outline of the imprint of a man's hand on one corner of the exterior of the wall

and the solid imprint of a knee in the ground would suggest that the murderer knelt and braced himself with his left hand to make sure of his aim before firing.

The evidence so far collected the incidents and details which lead up to the fatal shooting are most dramatic. Robbery was not the motive, as the man's pockets had not yet been touched when his dead body was found.

It is known that Pera, who is a Greek, had quarreled with Cosgrove owing to the latter's persistence in remaining around the yard of the company after he had repeatedly been told to keep away by the watchman.

ESCAPED IN SKIFF.
When the wounded man fell the murderer evidently rushed frantically from the scene of the crime to the water's edge, which is but a short distance, and taking a skiff which was lying on the shore, caught a ship leaving the harbor. The skiff has not yet been washed ashore, but the way the tide is running it would hardly have time to do so before night.

The autopsy this morning shows that Cosgrove met his death from a gunshot wound which penetrated the lung, causing a hemorrhage. Both bullets were found in the man's body.

JEFFERSON CITY, Mo., April 5.—Governor Folk today commuted the sentences of Emil Hartman and Julius Lehman, former members of the St. Louis school of Delaney, who were sentenced to expire on June 15th. They were sentenced in 1934, Hartman for six years and Lehman for seven years.

TO CURE THAT GOLD
Local Druggists' Suggestion.

"Said Mr. Specht of the Owl Drug Co.: 'This is the season for coughs and colds, and for the benefit of Oakland people we want to tell them the best means for a cure.'

"Don't dose the stomach with cough syrups. It's no use; they only soothe a little—upset the stomach and do not heal."

"The best cure we know is Vinol, which contains in a highly concentrated form all of the healing, curative elements taken from genuine fresh cod liver without a drop of oil to upset the stomach and retard its work. It contains no sickening drugs whatever. Vinol heals, cures and strengthens the sore lungs and bronchitis. It makes rich, red blood, builds up the appetite and creates strength. In fact it is the best remedy we have ever sold in our store for chronic coughs, colds, bronchitis, and all lung affections."

"We ask every person in Oakland who has a chronic cough or hard cold to try Vinol on our guarantee to return their money if they are not satisfied. Look for the Vinol agency in your town."

SOLDIERS ARE IN READINESS

Serious Fighting Expected at Any Time With Shipyard Strikers.

LORAIN, Ohio, April 5.—There are ominous preparations for trouble in the ship-yards strike. Company B, Fifth Infantry, O. N. G., is assembled in the armory and the company is being put through a firing drill by Captain Gove. The captain has been notified to be in readiness to go out at a moment's notice. There has been no further disorder on the part of the strikers today. They are in a sullen mood, however, and the authorities fear that trouble will occur when 230 strike-breakers expected to come in a body on a special train during the day, arrive.

SITUATION SERIOUS.
Captain Gove wired Adjutant General Critchfield saying that he believed the situation to be serious, and recommending that two or three companies in addition to the local company be sent to Lorain. The adjutant replied that he was keeping in close touch with the situation and would co-operate with Mayor King in maintaining order.

The Mayor expressed the belief that the local police will be able to cope with any further disturbance.

MAYOR ALARMED.
COLUMBUS, Ohio, April 5.—The adjutant general has ordered Brigadier General Speaks, who is now in Cleveland, to proceed to Lorain and report as to the situation.

Mayor King telephoned the adjutant general from Lorain at 9 o'clock that the situation is critical.

CANNOT FIND MISSING MEN
Police Are Looking For Two Who Have Suddenly Disappeared.

Two men were reported missing to the police this morning. S. K. Lewis, of the Crystal Creamery depot, Twenty-fifth and Grove streets, has been missing since February 4th. That day his collection book was found in the Tavern restaurant, San Francisco, by the cashier, Alphonse Cusack, and was delivered to Fred Champagne, 572 Broadway.

Lewis is a member of the N. S. G. W., insured in the Western Mutual Life Insurance Company, and has a wife and two small children. He is 25 years of age, 6 feet in height, well built, fair of complexion and has curly hair.

Allen Presler, 1735 Fifth street, reports that Ben Haskell, of the same address, has been missing since 4:30 o'clock yesterday afternoon. Haskell is 58 years old, 5 feet 8 inches in height, light complexioned, hair turning grey, wore a black fedora hat and a corduroy coat. He is supposed to have had about \$200 in his possession when he left the house.

CHILD CHARGED WITH FORGERY
Asserted Thirteen-Year-Old Girl Raised a \$2 Postoffice Order.

BERKELEY, April 5.—Charged with raising a \$2 postoffice money order to \$20, little Golda McChesney, a 13-year-old grammar school girl was arrested in the South Berkeley postoffice this afternoon by Detectives Jamison and Trasner.

Golda, who resides with her father and stepmother at 2034 Essex street, received this morning from the latter \$10 with which to pay a girl friend who had done some pyrography work for her.

Now Golda is very punctilious about paying her debts and instead of waiting for the burnt work, artist to come home from her work in the city, Golda decided that it would be more business-like to mail a check.

The check was procured in exchange for the \$2 at sub-station No. 5, near Adeline street, but it is charged that Golda again changed her mind "because," as she later told the detectives, "she thought that the letter containing the money order would miscarry and she preferred to deliver the money in person."

It is said she inserted a cypher after the figure two and tried to cash the check at the South Berkeley postoffice. The suspicions of the postmistress were immediately aroused by the mutilated check and she at once phoned to Chief Vollmer, who dispatched two of his detectives, and the youthful forger was apprehended on the spot.

In one sentence she told the chief that she intended to place the elusive cypher in the cents column so that the postoffice authorities would not give her too much money and in the next breath she told a reporter that she willfully raised the check in order to purchase a pair of spectacles.

BRINGS SUIT AGAINST BUNCO MEN
Paul Binello has brought suit in the Superior Court against Pietro Scrozzel and Giuseppe Olcese to recover \$565.05. Plaintiff claims he was bounced out of this money by a clever game on the part of the defendants. Binello got a bag of washers in exchange for his cash.

BROWN THREW BRICK, NOT "INSULATIONS"
KANSAS CITY, Mo., April 5.—"I never met this man in my life until last night. Then the first thing he did was to throw a brick at me," said William Brown, another negro.

"I never knew him," William said. "I started to sling a brick at her but I didn't. She shore is mistaken about me slinging those insults."

"I fear you're a little mixed," the judge said. "Maybe this will clear your name."

DESERTING HUBBY OFFERS WIFE MONEY TO RETURN
But Spouse Is Obstinate and Refuses to Accept Proposition--Would Rather Go to Work.

"I will give you \$4 a day if you will only come back and live with me," pleaded George W. Derbusch this morning on the witness stand in Judge Ogden's court to his wife, May, who is suing him for divorce on the ground of desertion.

"I would rather go to work for \$7 a week and board than to tie up with you again," responded Mrs. Derbusch. The Derbusches engaged in repartee until Judge Ogden had to quiet the couple. Mrs. Derbusch was positive in her refusal to go back under the family roof and declared that she would much rather work out as a domestic for a small wage than live with the man she claims deserted her once.

The matter of alimony while the divorce suit is pending, was the bone of contention this morning. Mrs. Derbusch asked for \$30 a month alimony in the divorce complaint that was filed some time ago. This morning the al-

mony phase was discussed at length, but when Derbusch made the proposition to respond so freely with the money he makes as a mill hand, if she would but return, Judge Ogden thought the case looked like it might be settled without legal decision. Mrs. Derbusch was against the reconciliation, but the judge gave her another week to think of the matter before he made any orders in the case. Derbusch has the custody of the two minor children.

ALLEGES HUSBAND IS HABITUAL DRINKER
Marie F. Sherman brought suit for divorce this morning against Frank A. Sherman on the ground of habitual intemperance. The couple were married in San Rafael April 29, 1905, and have two children, the custody of whom the mother petitions for.

Laid at Rest in Old Home

Life of Arthur P. Hayne, University Professor, Who Passed Away Suddenly.

The funeral of the late Arthur P. Hayne, an assistant professor at the University of California, was held yesterday at Montecito, Santa Barbara county, the home of his parents, Judge Henry A. Hayne, formerly of Missouri, and his wife, who died there over his body, but was prevented from reaching there in time owing to a wreck on the railroad.

Mr. Hayne was a classmate at the University of Judge Melvin and many other prominent persons, and to many he was known as one of the most brilliant orators of the world. He was born in South Carolina and was 40 years of age at the time of his passing. He came to California with his parents when a child and settled in Montecito, Santa Barbara county. His father had been an officer in the Confederate army and his grandfather was Robert Y. Hayne, the United States Senator from South Carolina who engaged in a famous debate with Daniel Webster.

After graduating from the Grammar and High schools of Montecito, Hayne entered the University of California and graduated from that institution with the class of '89, of which Lincoln Steffens, Judge Melvin, Professor's nephew, Noble and Hutton and Thomas B. Sullivan were members.

Hayne then went to France and studied at the University of Paris. He returned to America and was appointed a second lieutenant by Governor Budd. He had had considerable military experience as an officer of the University of California.

Mr. Hayne went to the Philippines with his battalion and after his arrival there was placed on staff duty owing to his special knowledge of the Spanish language. He served under General Lawton, Wheaton and Otis. He distinguished himself in his campaigns under General Wheaton who declared that Hayne was one of the most trusted officers. Dr. George Franklin Shields, sergeant-colonel of the California forces, said of him: "He is the bravest man I have ever met."

Toward the close of the war Mr. Hayne was promoted to a first lieutenant on account of his bravery. Upon his return he resumed work at the university, but later returned to the Philippines, where he went to manage a plantation. When General Baldwin made his famous attack on the mud forts, Lieutenant Hayne was among the first to enter the forts. He was killed by a bullet in the chest while one of the other soldiers.

While in this campaign Mr. Hayne was enabled to save the life of Captain James H. Hays, who was his military instructor at the university in his freshman year. Mr. Hayne was appointed a civil magistrate of the island and also a director in the agricultural school. His health failed, however, and he returned to his parents' home.

NEW TRIAL IS NOW DEMANDED

Closing Argument Made In Appeal for Greene and Gaynor

NEW ORLEANS, April 5.—A new trial was asked for Greene and Gaynor today by P. W. McElm, of Savannah, who made the closing argument for the defendants in their appeal to the United States Circuit Court of Appeals. This was the fifth consecutive day of argument.

Mr. McElm claimed that it was a violation of the national honor to extradite prisoners to the United States who had been found guilty of the crime and then to take advantage of the jurisdiction thus gained to try them on indictments for different offenses. He repeated the claim of the defense that extradition had been for punishment in kind in an agent of the United States, which was not an extraditable offense. He declared the prisoners could not be tried for any offense except that for which they had been extradited.

Answering the government's claim that as fugitives from justice, Greene and Gaynor could not have been by the nature of the indictment in two of their indictments. Mr. McElm asserted that it was legally impossible for the defendants to be tried in the federal court in Georgia when they were at the same time appealing to the justice of the federal court of their own homes in New York, which had jurisdiction to try them.

Answering the charge of fraud in securing contracts for Savannah harbor works, counsel cited the opinions of army officers, four engineers and three contractors to show that the material claimed to be inferior by the government was in the specifications. Mr. McElm said that while large profits were made, great risk had been run and success had been attained by the labor was necessary.

City Treasurer Bantel Is the Latest to Forswear All Allegiance to the Ruef Forces.

SAN FRANCISCO, April 5.—City Treasurer Charles A. Bantel is the latest of the administrative officials to forswear all allegiance of any kind to Ruef and his friends. It was made plain yesterday when he advanced David Davis, the receiving teller in his office, to the place of chief deputy. It had been planned all the time by those who wanted it for many reasons that the place was to go to John J. Boyle so that Senator Keane, recently deposed as secretary of the Board of Supervisors, could be landed in a place.

CASE AGAINST GLASS PUT OVER FOR ANOTHER WEEK

Time Granted to Get Grand Jury Minutes—Detweiler Case Also Adjourned.

SAN FRANCISCO, April 5.—Louis Glass, former manager of the Pacific States Telephone Company, was given another week to answer the charges against him growing out of the recent graft investigation and contained in the nine indictments brought against him. Judge Lawlor granted the continuance because a transcript of the grand jury minutes had not yet been made to the defendant's counsel. The case will be called again next Thursday.

The case of A. K. Detweiler, the fugitive Toledoan indicted in connection with the Home Telephone hoodlums, were on the calendar in Judge Lawlor's court for arraignment. When Detweiler's name was called Sheriff O'Neill filed a return stating that he had been

unable to locate the millionaire. A letter from Chief of Police Dunn was also filed, stating that he had sent out descriptions of the fugitive and copies of the bench warrants held by him to all the principal cities of the United States, Canada, Mexico, Cuba and the Philippines. The cases were also put over to next Thursday.

ALAMEDA, April 5.—Alameda Aerle No. 100, Fraternal Order of Eagles held an initiation and banquet and election of delegates to the State convention last night in Woodside. Eight candidates were nominated into the mastership of the order. The following were elected as delegates to the convention: Fred C. Smith, James E. Smith, Emil Putnam, Dr. Thomas Carpenter, and F. J. Macaulay.

LEAVE LONDON FOR CONTINENT

Royal Party On Its Way to Spain Where Kings Are to Meet.

LONDON, April 5.—Queen Alexandra, the Dowager Empress of Russia and Princess Victoria left London for the continent this morning. The queen and her sister will separate at Calais, the former and Princess Victoria proceeding to Toulon, where they will join King Edward preparatory to the meeting between the latter and King Alfonso at Cartagena. The Dowager Empress will go to Biarritz.

The same extraordinary precautions were taken for the safety of the dowager empress, as marked her arrival in England. No one was admitted to the railroad station except on written authority and the railroad from here to Dover was closely patrolled. Several Russians who arrived in England after the advent of the dowager empress have been kept under close surveillance.

CLIMATE EXCUSE WORKED THIS TIME

"John Dunn, you are charged with being drunk, guilty or not guilty," fired Clerk Hennessy at a prisoner behind the grating in department one of the Police Court this morning. "I was overcome your honor, that's all," replied the good-natured, smiling Irishman. "Where are you from?" was next asked. "I came from the East last week and I guess the climate and quality of booze sold here was too much for me and I was overcome," said Dunn. "You may go," answered Justice Smith, "but be careful of that 'overcome game,' it's dangerous out in this country."

MAY LOOK INTO ACTIONS OF SUPERVISORS IN 1906

Grand Jury Receives Tip on Old Briberies in Confession of Supervisor Sanderson to Them.

SAN FRANCISCO, April 5.—Both District Attorney Langdon and Prosecutor Heney announced yesterday their determination to carry the grand jury investigations as far back as the Board of Supervisors who served in 1906. It is alleged there is enough evidence available at this time to show that many of the members of that board received bribes. The information was gained in the confession made to the prosecution and the grand jury by Supervisor Sanderson. This investigation may show that in the case of Boston he did not need any less from Ruef.

"We are playing no favorites," said Heney, "and will go back as far as the statute of limitation will permit. If there was grafting in the old board we will dig it out."

"Have you any evidence against members of that board?" was asked of Heney.

"I cannot say anything on that point," was his reply. "But it is a matter of no consequence to us what political parties are involved."

LOCAL TRAIN HURLS MAN IN AIR AND INJURES HIM

Santa Cruz Contractor Walks on Tracks in Front of Fast Moving Engine With Painful Results.

While walking to the depot this morning to take the train home to Santa Cruz, W. S. Pitch, a contractor 50 years old, was struck by the Alameda local at First and Brush streets and painfully bruised about the body. Pitch was visiting his daughter, Mrs. L. A. Morris, at Sixteenth and Brush streets. This morning he arose early and started down Brush street to go to the depot. Being unfamiliar with the streets he went directly down Brush street to the railroad.

"I did not see or hear the train approaching," said Pitch this morning at the Receiving Hospital. "I was walking along the track and the first thing I knew was, the engine hurled me to one side."

The police patrol was called and Pitch was removed to the Receiving Hospital, where Dr. George G. Reine dressed the injuries, and the contractor was removed to the home of his daughter. It will be sometime before he will be able to resume his journey home.

Keller's---The Satisfactory Store

What makes it so? The dealing is done from your standpoint rather than ours. The article you buy may be perfect and correct by the gauge of fashion, but if it doesn't meet your requirements it is not satisfactory. We could make you keep it, because experts could prove it right. That's old-fashioned. We ask you not to keep it. That's the satisfactory store—Keller's.

"Prove It---I'm From the 'Show-Me' State,"

said a man who came into our store this morning to see the \$15 suits that we claim are as good as the \$20 and \$22.50 suits sold in other stores.

We did. The third suit we showed him struck his fancy. He put it on—took a look at himself in the mirror—saw that it fitted him without a wrinkle—and bought almost as quickly as you could say "Jack Robinson." When paying for it he said: "You are right. The only difference between this suit and the very best suit I have seen elsewhere at \$20 is the \$5 in price. I have sold clothing and know."

Our finer suits---those at \$18.50 to \$37.50---are every bit as extraordinary.

Our big business and little rent combination enables us to give our customers wonderful values.

Our great line of 25c washable Four-in-Hands---Our clever new effects in \$1.50 Golf Shirts---Our matchless collection of 50c Neckwear---Our "utterly different" 50c fancy Half Hose---Our exclusive novelties in fancy Vests---Our beat-'em-all values in Trunks, Bags and Suit Cases.

Genuine South American Panamas \$5

We're very proud of these new \$5 Panamas. They come in all the shapes that are fashionable this season, and are uncommonly fine hats for the price. You may bring your usual \$6 and \$6.50 expectations with you when you come to see them.

"Skypiece," "Lid," "Bonnet," or "Hat"---whatever you call it---if it's headwear we've got it in all the latest shapes. Every style from fashionable hatdom is here---with a little price tag on it.

We have the exclusive sale for the Keller \$2.50 Hats---the Hawes \$3 Guaranteed Hats---the Young \$4 Hats---the Miller \$5 Hats---and in addition to these world-famous makes we carry in stock the choicest styles of all other leading manufacturers.

One of our specialties is fitting heads, and in fitting them comfortably, becomingly and economically we excel.

ROYAL NEIGHBORS.

The Royal Neighbors of America, Golden Gate Camp, No. 3928, will have a class adoption this evening at Macabee Hall, Eleventh and Clay streets. Other camp and visiting neighbors are cordially invited to attend.

This is a lively camp and strangers are sure of a royal welcome.

The Modern Brotherhood of America is now celebrating its tenth birthday as a national fraternal beneficiary organization. Ten years ago on April 5, 1897, this society was organized, in a very small way, at Tipton, Iowa. Remarkable has been its growth. The membership now numbers \$5,000 and is rapidly increasing. The order has met all its obligations promptly, and has already accumulated a reserve fund of half a million dollars for the protection of its certificates. A healthy

WOODMEN OF THE WORLD.

Athens Camp, 957, W. O. W., held its regular meeting April 3d, and had quite an unusually large attendance. Several applications were received and accepted. The monthly drawing of prizes was held and the following neighbors went home with a prize: F. Loring, K. Fuller, E. A. Smith, J. Amoral, A. Barnes, W. Peacemaker, W. McCarty and S. Scudler. The prizes consisted of hand-painted ware.

The social committee wishes to announce that on Wednesday evening, April 24th, the camp will hold a dance for the benefit of the drill team and hopes to see that all the members of the above camp get in and hustle. The committee also wishes to notify the neighbors that Wednesday, April 10th, a large class will be initiated and Forest Camp's degree team will officiate at the ceremony. The degree team of Athens Camp, under the leadership of Captain Ganser, which is progressing very rapidly, went through with its work with the usual vim and spirit, which proves that it is out for something and that is to carry off the honors in the coming convention.

MACCABEE KNIGHTS.

Argonaut Tent, No. 33, held a very interesting meeting last Friday evening at Woodmen Hall. Sir Knights Smith and Bushman were installed as masters of guards, to take the place of Sir Knights Shafer and Arrest, resigned. Sir Knight Arrest, the dele-

gate to the Macabee convention at Sacramento, was instructed to use his influence towards making the conditions in the life benefits and sick and accident benefits, somewhat less onerous since the order is enjoying unusual prosperity.

The social committee has arranged a dance for Friday evening, April 5th, the proceeds to go toward the degree team fund. The committee promises good music and free refreshments.

MAPLE LEAF LODGE.

Maple Leaf Lodge, No. 390, of the Fraternal Brotherhood, met Friday last in Franklin Hall, 410 Thirteenth street, President R. E. Nickel presiding.

There was a good attendance and several applications were presented and two candidates initiated.

The second meeting night in April, April 12th, will be the regular initiation night. The Supreme Chaplain, Rev. J. A. Batchelder, will have charge of the work. About twenty members will be initiated. It is requested that every member be present, as considerable business is to be transacted.

Dancing and refreshments after the session. Visiting members are invited. Oakland Rebekah Lodge, No. 16, I. O. O. F., held its regular session on Saturday evening. There are nine applicants awaiting admission into this lodge. The treasurer, Sister Martha Rothaniel, presented the drill team with a beautiful silk flag, to be used in the initiatory work, and Brother Maganins gave a heavily carved staff to drape it on. On next Saturday evening, No. 16 will tender the district deputy president, Sister Clara Noble, of this lodge, a reception, to which the members of district No. 70 are cordially invited.

Sister Sawvell of Berkeley Rebekahs, No. 262, will have charge of the program. Professor Carl Sawvell will be the soloist. A laughable farce will be given. Sister Jessener will have charge of the refreshments.

The district will present the deputy president with a fitting testimonial of a faithful year's work, as will also her installing team.

No. 16 will send Sister Belle Bullock, Ida Ward, Clara Noble as delegates to the grand lodge, to convene in Los Angeles in May.

LIVE OAK LODGE, NO. 17.

The spacious Castle Hall of Live Oak Lodge, No. 17, K. of P., was well filled

NELLE E. KEEFE, Member of California Circle, No. 795, C. of F. of A.

at the session held last Wednesday evening.

Strangers F. M. Wilson and C. E. Burgess were duly and impressively initiated into the mysteries and beautiful teachings of the rank of page and on the 12th inst., will be proven in the rank of esquire.

The principle order of business was the election of grand lodge representa-

tives, the same to convene the week of May 15th in the city of Oroville. Brothers P. S. Journal, Charles E. Hood and John Sloan were unanimously re-elected to represent this lodge. Brothers A. S. Merly, George D. Hood and Harry Austin were elected as alternates.

The resolution to amend the bylaws, by raising the initiation fee to \$25 was presented for the second reading.

Many other points of interest and importance were presented and a most enjoyable session was held.

Next Wednesday evening the lodge will meet in Benevolence Hall, having exchanged lodge rooms for the evening with Royal Temple, No. 47, P. S.

OAKLAND LODGE.

Oakland Lodge, No. 118, I. O. O. F., held its regular meeting on last Tuesday and after the usual routine business, made arrangements to convene the third degree at its next meeting, Tuesday evening, April 9, at which time three candidates will be advanced and made full members of the subordinate lodge. All Odd Fellows are invited to attend. After the degree work something else.

FORESTERS OF AMERICA.

The Social Club, consisting of members of Court Verbanco, Court Sadie, Carnot, Verbanco Circle and Sadie Circle will hold their regular annual excursion and picnic at New Sun-Set Park, Santa Clara county, on Sunday, April 14. As a rule, the functions of this kind, given by the combined societies, have been characteristic for the good order, maintenance and successful as regards pleasure and enjoyment. The approaching one will be no exception to the general rule. In fact the committee in charge is zealous in its efforts to have it a red letter event in the history of American foresters.

Trains will leave First and Broadway at 3:30 a. m. on the morning of the picnic and returning will leave Sunset Park at 5 p. m. Union music has been retained.

FRATERNAL BROTHERHOOD.

Oakland Lodge, No. 123, Fraternal Brotherhood, held its regular meeting last Friday evening at Pythian Castle, Twelfth and Alameda streets, President E. E. Bakin presiding. There was a good attendance and as it was the regular open meeting, the lodge business was transacted with dispatch, so the members could entertain their friends.

Dancing was indulged in until a late hour and refreshments were served during the evening.

Tomorrow evening the public whist tournament will be held. Many beautiful prizes will be given, some of which will be seen in Tart Penney's windows this week. Score cards will be 25c each. The public is invited to attend this tournament.

UNITED WORKMEN.

Another spirited meeting was held on Monday night, at Twenty-second and Grove streets, by Oak Leaf No. 35. The officers are all young, enthusiastic workers, having from the first proved themselves worthy of their office.

Brothers John Coots and Geo. Taylor are constantly figuring on something to entertain. They have never failed.

District Deputy C. H. Miller comes from beyond the count and line every meeting. His remarks are always interesting and to the point. W. J. Oakes is also one of Oak Leaf's most faithful members. The music would be lacking without his assistance.

The theater tickets for Idora Park, April 17, are being rapidly disposed of. The opera, "Wang," will be the attraction.

E. E. Clary, P. M., of Hills Ferry Lodge No. 181, Newman, Cal., was among the visitors. He has belonged to the order for twenty-nine years, and his tales of by-gone days, when the order was in its growth, were appreciated. He reported his lodge in first class condition.

Good talks were also made by Brothers Gaffner, Cogan, M. Isaacs, Carr and others. In fact there was not a dull moment during the entire evening.

Point Richmond Lodge will be visited next Thursday night. It is anticipated that quite a number will go, the party to be escorted by Brother John Coots.

REBEKAH NO. 12.

Last Monday evening Brooklyn Rebekah Lodge No. 12, I. O. O. F., held a very enjoyable meeting. Even though the night was stormy a large gathering was present. Two candidates were initiated and two more will be initiated at our next meeting.

Sisters Albertina Salbach and Alice Williams were elected as delegates, to attend the Grand Lodge, which meets at Los Angeles in May.

A whist tournament will be given by No. 12 at I. O. O. F. Hall, corner of Eleventh avenue and Twelfth street, East Oakland, Monday night, April 8.

LODGE OF ORIENT.

This new organization will hold its next meeting on Thursday evening, April 11th, at Macabee Temple, Eleventh and Clay streets, at 8:30 p. m. A most entertaining program has been arranged. A large class of candidates will be initiated and other important business will be transacted. All members of other fraternal orders are cordially invited.

UNCAS TRIBE NO. 137.

An evening's pleasure as any in the history of the tribe was enjoyed by the members and visiting friends last Friday night, it being the regular monthly social meeting. The large wigwam at 12th and Franklin streets was crowded with the brothers and their friends.

A delegation of about forty members from Manzanita Tribe of San Francisco came in a body headed by "Great Representative" J. J. Bryan. With him was the general sachem of the tribe, also that eloquent speaker, Adam Smith.

The business of the tribe being all transacted by 8:30, Brother D. W. Pratt, chairman of the entertainment committee, was given the balance of the evening to present his program.

Brother James E. McKean acted as toastmaster and filled the bill as only "Jim" can. Many gems of oratory, polished and brilliant, with wit and sentiment, fell upon eager ears. Brother Bryan seemed to have touched the most responsive chords in the hearts of all, by his remarks on the past history of the order.

Brother Adam Smith is also one of the silver-tongued tribe and he complimented Uncas Tribe very highly on the high standard it has always held in all matters.

Many beautiful songs were rendered by Brother Frank Otis, Mr. Frank Learn, Moke A. Schaffer and others.

Scherer and Hargrave sang a thrill of pleasure through all by their masterful exhibition with various stringed instruments. R. A. Smith treated the members and called forth great applause, as did Mr. Miller, with his humorous selections. Also McKean, with Casey at the "Sail." Brother Dan Pratt related the "Tall Tale Heart," by Edgar Allen Poe, and merited the applause that followed this dramatic recital. To Mr. Arthur McGill all were grateful for the pleasure of the many beautiful selections on the piano.

With this and more and a banquet that would do credit to any caterer, this enjoyable evening came to a close.

Next Friday, April 5th, the adoption degree will be given and upon several pairs faces. All welcome. Come along.

PYTHIAN SISTERS.

Loyal Temple No. 47, Pythian Sisters, will give an entertainment and dance at Pythian Castle, corner 12th and Alameda streets, Wednesday, April 10th, in place of their regular monthly whist. All are welcome, as the committee in charge have spared no expense in making an evening of the kind, given by the lodge, as young. Good music has been secured.

ORDER OF SECURITY.

Oakland Council, No. 733, meets tonight. All members are requested to be present. The largest class ever initiated into this council will be initiated tonight and much important business will be brought before the council. You cannot afford to be absent. Visiting members will be made welcome.

OAKLAND LODGE, 103, KNIGHTS OF PYTHIAS.

This progressive lodge will confer the Page Rank to its assemblage this evening, Thursday, April 4th. Election of Grand Lodge representatives will also take place. The lodge will be served following the close of the evening's business.

GRAND ORIENT.

Alameda Council, No. 1, Thursday evening, March 28th, held a most interesting convocation. A large amount of business of minute importance was transacted. Twelve Neophytes were present and were initiated into the mysteries of Modern Orientalism.

It was decided that the council would hold its regular annual high links and banquet on Thursday evening, April 25th. Royal Prince Patterson, Bennett and Gilman were appointed a committee to superintend the affair.

TOO GENTLE.

They were talking about fads. "Suppose I should bring you a Roosevelt bear?" ventured the young man. "Oh, I wouldn't care for a Roosevelt bear," replied the girl. "And why not, my dear?" "Because Roosevelt bears can't hug." And then the young man took the hint. From the Chicago News.

FIFTEEN YEARS OF ECZEMA

Affected Hands, Arms and Legs—Endured Terrible Itching and was Unable to Sleep—Would Tear the Bandages to Scratch the Skin—In less than One Week

CURED BY THE CUTICURA REMEDIES

"I had eczema nearly fifteen years. The affected parts were my hands, arms and legs. They were the worst in the winter time and were always itchy, and I could not keep from scratching them. I had to keep both hands bandaged all the time and at night I would have to scratch through the bandages as the itching was so severe, and at times I would have to tear everything off my hands to scratch the skin. I could not rest or sleep. I had several physicians treat me but they could not give me a permanent cure, nor even could they stop the itching. After using the Cuticura Soap, one box Cuticura Ointment and two bottles Cuticura Resolvent for about six days the itching had ceased, and now the sores have disappeared, and I never felt better in my life than I do now. PLANS FOR A FINE HARBOR

"I am arranging to call this committee together soon for a conference with the water front attorneys, and the city attorney," said Mr. Jackson. "This is for the purpose of getting together, familiarizing ourselves with the situation, look into the harbor needs and prepare legislation to carry forward the work of making this the greatest harbor in the world."

DROPS DEAD ON HIS WAY HOME

Well Known Commercial Man Succumbs While Standing on Ferry Boat.

James J. Menzies, well known in commercial lines on both sides of the bay and for the past twelve years editor of "The Grocer and Country Merchant," a trade journal, died suddenly on the ferryboat Berkeley at 4:30 yesterday afternoon.

At the time of his death his son was standing by his side, and when Menzies was stricken he fell into the son's arms, expiring instantly. Death was due to heart disease. During the long period that he had been identified with commercial work Menzies became widely known as an authority on trade economies. ON BEHALF OF YOUNG GIRLS

Labor Leaders Are to Speak in Local Churches and Ask Public for Aid.

At a recent meeting of the Central Labor Council the matter of moral conditions, surrounding the working girls in Oakland, came up for discussion. It was suggested that this question might be presented from the pulpits of the churches. A committee, consisting of Charles W. Petry, Rueben Wland and L. A. Barton, was appointed to speak in any church which might be open. A number of the Protestant pastors have invited these gentlemen to speak in their churches. On next Sunday evening Mr. Petry and Mr. Wland will speak in the First Congregational church at 7:30.

VARSITY GRADUATE TAKES BRIDE IN WASHINGTON, D. C.

William Mein and Miss Frances Williams Are Married Amid Flowers at Church Wedding.

WASHINGTON, April 5.—The marriage at noon yesterday at St. Thomas' Church of Miss Frances Williams, eldest daughter of Mr. and Mrs. Gardiner F. Williams of San Francisco, to William Wallace Mein thronged that edifice with a fashionable gathering. Easter lilies adorned the altar, and the chancel was set with hydrangeas and palms.

The ushers were Representative Butler Ames of Massachusetts, Fred F. Austin, Thomas Riggs Jr. and Clarence Fellis of San Francisco.

The bride came in with her father, and was preceded by her sister, Miss Gertrude Williams, as maid of honor, and another sister, Miss Dorothy Williams; Miss Ruth Perkins, Miss Peroline Perkins, Miss Katherine Jennings and Miss Virginia Fields of Stockbridge, Mass., as bridesmaids. At the chancel railing the bride and her father were met by the bridegroom and his best man, Albert Carroll of Baltimore. The ceremony was performed by Rev. C. Ernest Smith, D. D.

The bride's dress was exceedingly elegant, being of white satin, made in a modified princess style, the bodice and clinging sleeves being of duchess lace. Her tulle veil was crowned with orange blossoms, and her shower bouquet was of orchids and lilies of the valley. She had on a superb necklace of diamonds, with a large sapphire in the central drop.

Mr. and Mrs. Mein will make their home in Johannesburg, South Africa, where the former is engaged in mining. He is a graduate of the University of California.

SUES AUTOIST FOR DAMAGES

Complaint Asks \$10,000, Claiming He Was Badly Injured by Being Struck.

George L. Bluff has commenced an action in the Superior Court for \$10,000 damages against J. H. Baxter for injuries he is said to have received by being knocked down by the defendant's automobile. The complaint, filed yesterday afternoon, alleges that on July 28, 1906, Bluff was crossing the San Leandro road when the auto, driven by Baxter, came along at the rate of thirty miles an hour and he was struck. The plaintiff claims that the machine was recklessly driven.

PROPERTY IS FLOODED DURING HEAVY STORMS

Property owners living on Bay Place, between Twenty-fourth and Twenty-sixth streets, asked the fire and water committee of the Council last night for relief from conditions existing during storms. When heavy rains are falling the entire property is flooded and people are greatly inconvenienced in getting to and from their homes. The resolution calling this to the attention of the committee asks the City Engineer to prepare plans and specifications to enlarge a culvert at Twenty-sixth street.

LAST BIG SUBDIVISION

East Piedmont Heights, the last of Big Tracts Near the Business Center, Now Being Sold.

The placing of the East Piedmont Heights tract on the market next Saturday marks an epoch in the real estate business of Oakland. This is virtually the last extensive and desirable tract of beautiful sites for homes in near proximity to the business center of the city that has remained undivided, and there is no question but they will be sold out entirely on the opening day of the sale. Wickham Havens reports that there has been an extraordinary interest manifested in this beautiful tract by home-seekers since the announcement was first made this week that they would be put on the market.

The East Piedmont Heights district overlooks Lake Merritt and is beautifully laid out with winding streets and broad avenues that connect with the boulevard. There is not an undesirable lot in the entire tract, and they are so near to the business activities of the city, but withal surrounded as they are by city parks, possess all the attractiveness and charms of the suburbs. The lots cluster on a series of slightly knolls that are fringed with stately pine trees, and the view from any point of the tract is certainly an inspiring one covering as it does the wide sweep of the Berkeley hills with beautiful Piedmont, with its magnificent homes at one hand and the city parks and Lake Merritt on the other, while in the distance lies San Francisco bay with its changing light and shade, and Golden Gate on the horizon line. Certainly East Piedmont Heights fulfills every artistic requirement as a favored site for homes. The tract is being beautifully improved by skilled landscape gardeners and the street work will embody the latest ideas of civic utility and adornment.

'BLUFF' HAS BEEN RECALLED; BERKELEY NO LONGER DRY

Legal Complications Allow West Berkeley Saloons to Open--Minister Takes Hand in Matter.

BERKELEY, April 5.—Legal complications and the determination of a Methodist minister, Rev. W. H. Wilkins, to speak out, regardless of consequences, have resulted in the temporary reopening of all the West Berkeley saloons. Yesterday a municipal "bluff" was called, one which has been in operation in Berkeley since January 1st, when the trustees, by resolution, decided not to grant any liquor licenses within the city limits. And in this game of "bluff" the Chief of Police, Town Attorney and Board of Trustees have all combined to "bluff" the saloon men.

In the first place the trustees have never rescinded the old ordinance providing that licenses may be granted to nine saloons in the city limits. The reason for the failure to repeal this ordinance, according to the Chief of Police, lies in the fact that Walter Sweetman and August Huillade were arrested for violating the provisions of that ordinance and fined \$500 each. Their cases are now on appeal and the Town Attorney says that should the town ordinance under which they were convicted be repealed, a technicality would be produced that might result in the dismissal of their cases. And the town would lose \$1,000 in fines.

ORDER IS NULL.

In the second place, according to the Town Attorney, who is the official advisor in the saloon matter, the resolution providing that no more licenses shall be granted in Berkeley is not effectual until the old ordinance providing for nine licenses is repealed and a new prohibition ordinance is adopted.

The Chief of Police says he has been informed by the Town Attorney that, should he arrest any of the thirteen "speakeasy" proprietors who are alleged to be selling liquor in the West End, convictions could not be obtained and the real state of affairs would become known. Then the "speakeasy" men would open their doors, and West Berkeley would be wide open. By keeping quiet the trustees thought that the "bluff" might be worked long enough to secure the conviction of Sweetman and Huillade in the higher courts and the town would then be richer by \$1,000.

Meanwhile the ex-saloon men are doing much as they please in the West End. Thirteen places, according to good information, have wine,

beer and whisky on tap for their regular customers.

SELLING LIQUOR.

Charles Hadlen, who is accused by Trustee Olsen of running his saloon wide open in the rear of his grocery store at Ninth street and University avenue, admitted today that he was delivering liquor in quantities of from one quart up to all who asked for it in the West End. He claimed that he had been advised by his attorney that he could do this under the United States revenue laws since there was no ordinance in force prohibiting the sale of liquor—only an ordinance providing a penalty for selling without a retail license.

"While the trustees have refused to grant me a retail license," said Hadlen, "they have not passed a prohibition ordinance. There is no law making it a penalty to sell liquor wholesale in Berkeley, and the American Brewery would be closed up. I pay an internal revenue on my liquor stock and can deliver all I want to by wholesale."

Chief of Police Vollmer has given out the following statement in regard to the situation:

"Justice to the department I believe that it is right the people should know the truth concerning the saloons in West Berkeley. We are now operating under an ordinance which gives the Board of Town Trustees the right to license saloons in the town. Under this law we can arrest the offenders not more than once a quarter."

"The saloonkeeper could plead not guilty to the charge and under the advice of his attorney would open the front doors of his saloon and conduct his business as before and the same as any other business man."

TO REPEAL LAW.

"As soon as the new ordinance, which is now in the hands of the Town Attorney, is adopted, the old liquor ordinance will be repealed and all of the saloon men arrested for the violation of the same will be dismissed."

"The cases now pending illustrate better than anything else the truth of the above statement."

"Both Trustee Olsen and Dr. Wilkins were acquainted with these facts, therefore I cannot understand why they should attack this department."

"If this department had arrested the saloon men who are now selling liquor in West Berkeley, the town would now be running wide open. Fortunately, however, the Town Attorney will present the new ordinance for adoption by the Board at their next meeting."

"We have been governed entirely in this matter by the advice of our Town Attorney, whom everyone knows to be quite capable."

FULL OF WIT; VERY TUNEFUL

"The Yankee Tourist" Pleases Large Audience at Macdonough Theater.

Raymond Hitchcock opened his engagement in "The Yankee Tourist" at the Macdonough Theater last night in a crowded house. It is a play founded by Davis on "The Gallopers," lyricized by Irwin, famed as a wit, and set to music by Alfred Robyn, the St. Louis composer.

The situations come popping into the scenes, flashing and effervescent, and all carried along with flashy epigrams, catchy songs and alluring dances. From the rise of the curtain, when a most inspiring chorus is discovered, until its fall on a colored ensemble there is not a lagging minute.

Raymond Hitchcock is as funny as ever. He has a number of good songs and jokes, and the usual stage business with a comedian of his ability keeps an audience constantly amused. Flora Babelle and Helen Hale both have good voices and are very good in everything they do. Helen Hale, in her "Teddy Girl" song, captivated the house. Another hit of the performance is the song, "Irish Lad," sung by Walter Lawrence and the Legion. There will be three more performances, tonight, tomorrow night and tomorrow matinee.

Horseless carriages—Wireless telegraphy—Now lardless cookery

Improvement is the order of the age. There was a time when Lard was considered the only shortening. To-day, the only people who use lard for shortening and frying purposes are those who are not familiar with the virtues of *Cottolene*. It pays to be abreast of the times. *Cottolene* is not only superior to lard from a health standpoint, being a vegetable rather than an animal product, but it will make more palatable food than lard; and it is more economical than lard because, being richer, one-third less is required than oil or cooking butter.

Lard cooked food is not digestible because lard is a hog-fat product. *Cottolene* makes food more digestible and healthful because it is essentially a product of nature and contains only that which is digestible, healthful, and a real means of sustaining life.

If your grocer is an up-to-date, progressive man, he will have *Cottolene* in stock. More than that, if he has ever used it in his own family, he will recommend it in preference to lard or cooking butter. If he does not do this, it is only because he is unfamiliar with the virtues of *Cottolene*. Prove our claims to your own satisfaction by giving the product a fair test.

Give *Cottolene* a good, fair test, use it according to directions, and note the benefit to your digestion. You'll never go back to Lard.

COTTOLENE was granted a GRAND PRIZE (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with COTTOLENE another GRAND PRIZE.

"Home Helps" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping COTTOLENE clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

FINED \$5 FOR HAVING A GUN

Mexican Picked Up in Chinatown by Police as Suspicious Character.

Being charged with carrying concealed weapons, Joe Rodriguez, a Mexican, was before Judge Smith, in department one of the police court. Joe said he could not talk "United States," so Clerk Hennessey was sent to interpret for him.

Just then Joe's employer came up and explained that Rodriguez awakened him Tuesday night about midnight, telling him that he had been held up and robbed. The employer told Joe to look up a policeman and tell him his troubles, and Rodriguez started out to do so. He was picked up in Chinatown and the big gun was found in his pocket. Judge Smith found the man guilty, but there were extenuating circumstances, so he said: "Tell him it will cost him \$5, to which Rodriguez responded 'Car-ramba.'"

Wife of Convict Husband Sues For Legal Right to a Separation.

Because her husband has been convicted of a felony, Clementina Bina has instituted proceedings for a divorce from Frank L. Bina, the wealthy Alameda merchant who is now serving a sentence for bigamy. He was convicted in Stockton about a year ago.

Mrs. Bina is now making her second attempt at divorce, for over a year ago she asked the courts to sever the matrimonial bonds on the ground of extreme cruelty. This action was never pressed. During the early part of 1906 Bina ran away with another woman and they were married in Stockton. Mrs. Bina learned of the action her spouse had taken, so notified the authorities. Bina was arrested, found guilty of bigamy, and sentenced to four years in the State penitentiary. In the complaint that was filed this morning by her attorney, F. V. Myers,

CREATING A MEAT TRUST

English Dealers Dallying With the Producers in Argentine.

LONDON, April 5.—Negotiations are understood to be proceeding between the British companies concerned in the Argentine meat trade with the view to effecting an agreement to restrict supplies and keep up prices.

The directors of the companies repudiate the suggestion that a trust is in process of formation, but the chairman of the River Plate Fresh Meat company at a meeting yesterday openly spoke of the possibility of an arrangement with other companies to adjust quantities. Mrs. Bina asks for \$30 a month maintenance from her husband's property, and the custody of the minor children. Bina is well known in Alameda, where he owns considerable property and was formerly in the wholesale cigar business. He belongs to a well known Austrian family, from whom he inherited much of his wealth.

VOTERS' LEAGUE, ITS WORK AND SCHEMES FOR FUTURE

Will Be Strictly Non-Partisan--To Keep Tab on Official Acts of City Government All the Time.

To the members of the Voters' League of Oakland: Believing that the members of this league and other contributors toward the expenses of the work thus far undertaken, are entitled to a report concerning that work and an outline of the plans in contemplation for the future, I beg to submit the following statement on behalf of the executive committee.

The completion of the organization of the league by the election of its officers was effected February 18, 1907. Your committee realized that the time then intervening before the date of the ensuing municipal election was altogether too short for raising the necessary funds and then making as complete and adequate preparation for the campaign as it would like to make.

RESPONSE GENEROUS.

This appeal met with a response which may be regarded as generous in view of the general lack of knowledge concerning the existence, purposes and accomplishments of such organizations in other cities. So far as we have learned, ours is the first work of this precise nature to be undertaken on the Pacific Coast.

The results of our investigations, made through the advisory committee and independently through various agencies, were very carefully considered at many and prolonged meetings of the committee during the later days of the campaign. A report was then made up with practical unanimity regarding facts and opinions, in every case their report was printed in condensed pamphlet form and mailed under letter postage, to every registered voter in the city, being about 21,000 in number.

The expense of this work, as our treasurer's report will show, was a little over \$1100, all of which has been collected from subscribers outside of candidates for office. Your committee very early took the stand that it would not accept donations from candidates. All bills have been paid and there remains a small balance in the treasury.

PATIENCE NEEDED.

If the results of our first effort were not as apparent in the recent election, as we could wish, they were not a surprise to your committee. It is the work of municipal reform is a laborious one, requiring patience and persistence. It has never yet been accomplished within three weeks' time by a newly formed organization. In the larger Eastern cities, notably in Boston and Chicago, such leagues have been greatly assisted by the hearty support and co-operation of the better portion of the citizenry. In this city, however, the valuable aid to its work by the organizations in their investigations of candidates.

Reform efforts of this nature have always met with opposition and have wandered from the straight and narrow path of truthfulness. The great C. T. Burch shows are new to the West, but to put it in the language of this splendid disciple of Ananias (?), it is the greatest show of the kind that ever came meandering under the pike. The great Burch shows will exhibit in this city all of next week, exhibiting in three distinct parts of the city for two days each, on Monday and Tuesday the show will exhibit at the corner of Fourteenth and Union streets; on Wednesday and Thursday they will appear at the corner of San Pablo and Thirtieth streets, and on Friday and Saturday in East Oakland, at the corner of Twenty-third avenue and Railroad avenue. The aggregation numbers upwards of 350 performing animals, including camels, pumas, zebras, llamas, Shelland's goats, pigs, monkeys, dogs, kangaroos and other animals, besides the usual complement of acrobats, clowns, gymnasts, bicyclists, riders, valetts, and athletes. Performances will be given each day at 2 and 8 p. m., and a free street parade will be given each morning at 11 o'clock, which is said to be the most novel and costly demonstration ever given by a similar aggregation.

THE CIRCUS IS COMING

Will Exhibit in This City All Next Week.

"Hold your horses, the elephants are coming." The small boy and his sister are happy; unusually solicitous, particularly punctual and exceedingly willing to do odd jobs, for the cause of the circus change may be found by looking at the highly colored lithographs depicting daring deeds, which are staring from every bill board in the city. The circus is coming in all its glory and show the gorgeous pageants of early Rome. It must be true, for the tall ministerial, sanctimonious representative says so, and circus representatives never wander from the straight and narrow path of truthfulness. The great C. T. Burch shows are new to the West, but to put it in the language of this splendid disciple of Ananias (?), it is the greatest show of the kind that ever came meandering under the pike. The great Burch shows will exhibit in this city all of next week, exhibiting in three distinct parts of the city for two days each, on Monday and Tuesday the show will exhibit at the corner of Fourteenth and Union streets; on Wednesday and Thursday they will appear at the corner of San Pablo and Thirtieth streets, and on Friday and Saturday in East Oakland, at the corner of Twenty-third avenue and Railroad avenue. The aggregation numbers upwards of 350 performing animals, including camels, pumas, zebras, llamas, Shelland's goats, pigs, monkeys, dogs, kangaroos and other animals, besides the usual complement of acrobats, clowns, gymnasts, bicyclists, riders, valetts, and athletes. Performances will be given each day at 2 and 8 p. m., and a free street parade will be given each morning at 11 o'clock, which is said to be the most novel and costly demonstration ever given by a similar aggregation.

attitude subjects for the most searching investigation and publicity. It is largely because of the lack of just such information on the part of a great number of voters that the world is confronted with such a spectacle of municipal corruption as exists in our sister city of San Francisco today.

The combined forces of the corporations seeking franchises and other favors for which they are unwilling to adequately compensate the city and that element in every large city whose business will not flourish under a lawful and proper official scrutiny, constitute a tremendous power in municipal politics. These interests are not satisfied to have in city government, high-minded honorable men whose sole purpose is to deal justly with fair interests and faithfully devote their abilities to the service of their city, but strive to elect weaker and less scrupulous officials with whom they can do business, this phrase being in any instance entitled to its worst possible construction.

When we examine into the antecedents of the men who compose San Francisco's city government, and the influences which affected their nomination, it should not occasion great surprise that they have betrayed and disgraced their city and that most of the legislative branch stand before the people as self-confessed bribe takers at the hands of public service corporations whose managers stooped to barter with these men for the honor of their city in the hour of her physical devastation, by earthquake and fire.

STANDARD SET.

Your committee does not believe it has set too high a standard for the public official. It does insist upon honesty of purpose, a sincere devotion to those things that are decent and clean in politics, and at least a moderate degree of business ability. These are by no means unobtainable or even uncommon qualifications; they are in the possession of a large number of available men in all of the parties. The trouble with our politics is that we have been trying to substitute for these basic virtues, party fealty, political cleverness, good fellowship and a disposition to serve one's friends. The experiment has always proved disastrous to the cause of good government.

Various suggestions have come to the committee that it give its attention to existing conditions in our county government. It seems to be abundant indications of extravagance and incompetency or worse even in that quarter. In view of the controlling importance of the City of Oakland in our county government and the burden imposed upon her taxpayers by the wasteful and inefficient administration of the same, it may be thought, advisable by this league, to extend the scope of its work so as to include county affairs. This, however, will be left to the league itself and not the executive committee to determine.

WERE BOSSES.

The ever-present danger to every reform organization is that of losing its independence and becoming a tool under the control of cunning political managers. It is noted that in San Francisco where a sort of citizens' board of surveillance and control over the city government, has been suggested must be the present emergency there, it seems to be taken for granted, in view of past experience, that such a body could preserve its integrity and independence for only a brief time, after which the organization would then inevitably pass into the control of ambitious political leaders and become an instrument for working out their designs.

In Eastern cities where such leagues and good government clubs have attained permanency and the greatest measure of efficiency, various expedients have been resorted to in order to overcome this danger. Some of these, it may later be found necessary and wise to adopt here. For the present, however, your committee has no definite recommendation to make along this line.

It would be glad to have all the parties nominate such men as it could consistently endorse. Those candidates whom it felt constrained to oppose in the recent campaign but who were elected, may be assured that if they serve their city faithfully and well such service will receive the recognition and commendation of this body; while nothing short of such service on the part of those whose election it strove to promote, will lead to its condemnation.

IS NON-PARTISAN.

This League aims to be a spirit, not only non-partisan but without bias or prejudice. It will not make nominations of its own but believes it can make its influence count for the most in a campaign. It would be glad to have all the parties nominate such men as it could consistently endorse. Those candidates whom it felt constrained to oppose in the recent campaign but who were elected, may be assured that if they serve their city faithfully and well such service will receive the recognition and commendation of this body; while nothing short of such service on the part of those whose election it strove to promote, will lead to its condemnation.

This brings us to a brief outline of the plans which the committee has in contemplation for the period between now and the next municipal campaign. It proposes first to keep a factory in some concise and convenient form of the official acts and votes of the members of the city government for use at any time, a sort of "ledger account" as it has been styled by other leagues where the same thing has been done. Also propose to keep in touch to a reasonable extent with city affairs by suitable attention to an investigation of measures before the government and work undertaken, and from time to time, if thought wise and necessary, to publish for the information of the members of the League and others, the results of such investigations. Such a service has elsewhere been found a valuable safeguard to the public interests and many an intricate scheme has failed of consummation because of such publicity.

Your committee would be glad to have available much larger fund than is now in sight with which to prosecute the work above outlined.

If these plans commend themselves to the membership and other friends of the League, they will be carried out with economy and with as much thoroughness as the available funds may allow. Respectfully submitted, R. H. Chamberlain, President.

Everybody wants something for nothing, but few people are satisfied with what they get that way.

THAW CASE PROBABLY WILL BE IN JURORS' HANDS NEXT WEEK

TRIAL NOW IS NEARING END

Arguments to Be Made by Opposing Attorneys Monday Morning.

NEW YORK, April 5.—The trial of Harry K. Thaw for the murder of Stanford White probably will be concluded next week.

District Attorney Jerome decided today that he will not ask the appellate division of the Supreme Court for a writ of prohibition against the continuance of the trial before Justice Fitzgerald.

TO MAKE ARGUMENT.

He will, however, on Monday make an argument to Justice Fitzgerald against the confirmation by the justice of the report of the commission in lunacy which declared that Thaw was capable of appreciating and understanding the proceedings against him and of advising with his counsel.

Mr. Jerome came to this conclusion after having passed an hour reading the law and precedents in criminal cases. He also had an interview with Justice Patterson of the appellate division of the Supreme Court.

DELMAS FOR DEFENSE.

Should Justice Fitzgerald overrule the district attorney's arguments and confirm the report of the lunacy commission, summing up in the case will be begun, Mr. Delmas opening for the defense. He will be followed by the District Attorney for the prosecution. If there are no further interruptions, the case should be in the hands of the jury by Wednesday or Thursday of next week.

TRIED TO GET OUT OF PRISON

Trio in San Francisco Jail Attempt to Saw Way to Liberty.

SAN FRANCISCO, April 5.—R. Meade, Joseph E. Mink and W. Warner, three desperate criminals, awaiting trial at the city jail, were discovered while attempting to saw their way to liberty by Sergeant Campbell about 11 o'clock this morning. Mink, who is being tried for forgery, was the possessor of the saw and was in the act of sawing through the iron bars when detected. The sergeant was informed of the attempt by one of the "bushes."

Mink is being tried for grand larceny, while Warner is being detained on a charge of burglary. Mink, when discovered, confessed and said that the saw which is similar to those used for filleting work, has been in his possession for several months. He said that he had made several previous attempts to make his escape since his confinement in the Central station, but could not get any one to stand in with him until the task was completed. Mink is the preacher who was arrested nearly a month ago for forging stock certificates.

ITALIAN LABORERS DROWNED IN RIVER

SACRAMENTO, April 5.—Word comes from Isleton that three Italians were drowned yesterday in the Mokelumne river, at the lower end of Brannan island, by the capsizing of a boat. The men were laborers, whose names could not be learned.

Women who feel that they were born to command usually succeed in acquiring husbands who rule the roost.

NEW MEN OBTAIN CONTROL OF CAFE

Sam Tellich has disposed of his interest in the Optimo restaurant, at 450 Ninth street, to Andrew Mitjarsich, formerly of San Francisco. John Mitjarsich retains his interest in the business and in future the two latter gentlemen will conduct this favorite place on the same high plane as formerly. Both Mr. Mitjarsich and Mr. Tellich are favorably and widely known and are caterers of long experience.

Moe, 26, and Hilda Nerem, 21, both of Oakland.

OWNERSHIP OF PARROT IS THRESHED OUT IN COURT

Two Women Assert They Own Bird-- Judge Stops Proceedings and Case Is Thrown Out.

One woman in possession of a parrot, another claiming ownership of the chatterbox, and a beautiful green bird were the principals in a hearing before Justice Samuels in department two, of the Police Court this morning. Both of the women were surrounded by friends, and the way in which the two glared at and berated each other in subdued tones, was interesting to the observer. Meanwhile the parrot was calmly surveying the crowd, occasionally emitting a guttural sound, but never a word of recognition was given to either of the parties to the suit.

After hearing testimony from both sides, Justice Samuels decided that the court had no jurisdiction in the case, but that the suit should have been brought under claim and ownership section, not under larceny, as the complaint alleged when the search warrant was issued.

BIRD FEW AWAY.

Mrs. Lizzie Klee, living on Shattuck avenue, in Berkeley, lost her parrot November 21, 1906. The bird flew away while a window was open, and the daughter was feeding it. No trace of the parrot could be found, although diligent search was made and inquiries sent out in every direction.

The testimony of Mrs. Klee showed that the parrot she lost, while it talked a little English, was more proficient in German, always singing in that language.

Mrs. Henrietta Rasmussen, wife of Superintendent Rasmussen, of the Key Route Railway, living on Pittsburg street in Oakland, found a parrot last July in a tree in her yard, and it was secured by her little boy. She testified that she fixed the date on account of its being the wedding anniversary of her sister's wedding, and they were all talking of the bird on that day.

She also testified the parrot talked a few words in German, particularly when the family was at meals, when it would call for "kotofoel" or potatoes.

SANG IN ENGLISH.

Her bird sang in English but occasionally drifted into German.

March 16th Mrs. Klee heard of the parrot found by Mrs. Rasmussen, and called on her. Identification of the bird was made by Mrs. Klee, but Mrs. Rasmussen was loath to give it up, saying that the parrot came to her months before the one lost by Mrs. Klee left her possession. Mrs. Klee was not satisfied, and hid herself to the office of the prosecuting attorney, where she obtained a search warrant alleging larceny. This brought all parties, including the parrot, into court and this morning the matter was threshed out.

Rosie Martel worked in the Klee family several years, as she put it, and had fed the parrot six years. She "guessed" she knew her "Pappie." She says she fed it, "kissed it a dozen times a day, and loved every feather in its sweet body." She said the one in court was Mrs. Rasmussen's.

Mrs. Klee was equally sure, and said she would use hundreds of dollars to recover it.

FOUND IN YARD.

Mrs. Rasmussen acknowledged the parrot had been found in her yard and by saying she made to leave it to whom it belonged was to inquire of a neighbor across the way, who owned a parrot, if it was that one. The parrot talked some German, but mostly English.

Justice Samuels stopped proceedings by saying he found no larceny committed, and the court had no jurisdiction. This was doubly true because of the fact that even if larceny had been committed, it was in Berkeley and

outside of the jurisdiction of the Oakland courts.

REASONABLE REFERENCE.

"But is it not a reasonable inference that the primary purpose was to gain control of these three great transcontinental lines for the control of rates?" Mr. Lane asked, but Mr. Milburn would not consent that any motive had been shown in the purchase of Southern Pacific stock except to get the line from Ogden to San Francisco.

Taking that portion, it must also take the line from New Orleans to San Francisco and Portland. Moreover, the negotiations for the Southern Pacific stock had begun long before an effort was made to obtain Northern Pacific stock.

"Any other theory is a mere dream," he declared.

If it is a dream, it is not the dream of this Commission, but of Mr. Harriman," responded Mr. Lane, and Mr. Milburn turned his attention to the question whether the Union Pacific or Southern Pacific are parallel and competing lines. He declared they were not. In reply to Commissioner Clements, Mr. Milburn said it was his contention that a purchase such as that made in this case, even though it does effect a retraction of trade, is not controlled by the trust act. It was sufficient that there was a purchase. He would not, however, go to the extent of expressing an opinion as to what should be said in case a monopoly was established.

MILBURN COMPLAINS.

Mr. Milburn complained of the course of the Commission in singling out the Harriman interests for investigation, and said he would be pleased to have an inquiry into the entire subject of community interest.

He would have the Penitentiary, the Vanderhills, the Northern Pacific, the Rock Island and the Great Northern systems inquired into, for all of these had grown up under the eyes of the Commission by the acquisition of stock and consolidation and all control parallel and competing lines. He believed a general inquiry would result in showing the beneficial effects of large concerns. The mere matter of the size of a concern had no terrors for him.

"It," he said, "the politician would only let the railroad alone for two or three years and let this Commission exercise its present powers in earnest. I believe that many of the problems could be worked out and solved properly."

Mr. Milburn was about to conclude when Commissioner Lane asked him to give his attention to a question.

WHAT HARRIMAN SAID.

"Mr. Harriman," said the commissioner, "stated that but for the restraint on the laws he would take over the Santa Fe and that he would get control of the Northern Pacific. Suppose he had carried out this plan and also controlled the Illinois Central, he would then control all the lines running into Oregon and California. Does he not acknowledge that he was checked by the restraint of the law?"

MILBURN'S REPLY.

Mr. Milburn replied: "I don't think that too much stress should be laid on such a remark. Mr. Harriman was not speaking from a legal point of view, but was expressing an idea he had in his mind and which cannot be carried into practice. Harriman, except through government ownership—from which God save us. His ambition was a mere dream."

MUCH COMPETITION.

We contend that there is not much diversity of opinion as to whether competition has been disturbed by the consolidation. Mr. Severance made the point also that there was much competition between the two lines in Oriental business, and in support of this contention adduced facts to show that formerly the "Sunset" had reduced rates to secure the business.

ARRANGING TO SELL CHURCH

Berkeley Methodists Will Transfer Property to "Friends" Congregation.

BERKELEY, April 5.—Negotiations are under way for the transferring of the Trinity M. E. Church at the corner of Fulton and Alston way over to the "Friends." From those that are in a position to know, it is learned that the deal has been practically settled, and the attention of the directors of the Friends Church is now concentrated upon finding a suitable lot, at the corner of Fulton and Channing ways.

OWN ONE SITE.

The Friends now own a site on Haste street between Fulton and Shattuck avenue and if arrangements can be made this property will be disposed of and the location on Fulton street and Channing way accepted. When this is accomplished the old M. E. Church building will be moved down Fulton street to its new location. The moving of the structure will in itself be a big undertaking and the building is a fine piece of architecture and in order to get it to its future home a number of trees along Fulton street will have to be spring back several inches. This, however, has been figured out to a nicety and the house-movers say that it can be done without injury to the trees.

TO REMODEL.

If the transfer of ownership is made it is the intention of the congregation of the Friends Church to have the structure remodeled and made modern in every respect. Around the structure will be built a brick casing or veneer, making it practically a brick building and it will be one of the neatest places of worship in the city when all of the plans of the proposed purchasers have been carried out. The Friends membership is rapidly increasing and it has been found that the present place of worship is not large enough to meet the requirements of the enlarged congregation and it is for this reason that the members are casting about for a new building and location.

A meeting is to be held Wednesday evening, April 10th, in Armory Hall.

A recent church notice in Manchester, England, read: "A potato pie supper will be held on Saturday evening, Subject for Sunday evening, 'A Night of Agony.'"

PASSES TO THE GREAT BEYOND

Socialist Candidate for Mayor of Alameda Dies at Home.

ALAMEDA, April 5.—C. R. Wheelock, the Socialist candidate for mayor, died yesterday afternoon at 5 o'clock at his residence, 2209 Santa Clara avenue, where he had been residing two years. He had not been attended by a physician and last night an autopsy was performed, which showed that death was due to a complication of troubles induced by pneumonia.

A little more than a week ago Mr. Wheelock contracted a cold. He refused to have a physician attend him, being a believer in Christian Science. About 5 o'clock yesterday Dr. J. A. Riley was called to attend him, but when he arrived at the house the man was dead.

Just what effect Wheelock's death will have on the election, which is to take place Monday, is not yet known. Should the Socialists numbering more than 400 in this city, throw their votes either to E. Taylor or Joseph F. Forderer, it is believed that the man getting the votes would be elected. Should the name of another Socialist candidate be written on the ballot or the vote cast on principle, there would be no effect.

Mr. Wheelock was a native of New York, aged 53 years. He was a capable and successful business man, and was well known in the city. He had been the head of the Socialist headquarters at his home on Santa Clara avenue for about two years. He was a single man and is survived by two brothers and a sister.

IMPROVEMENTS AT ELMHURST

**Court and Jury View Lands
Affected by Condemnation
Proceedings.**

ELMHURST, April 5.—The Pacific States Telephone and Telegraph Co. have rented quarters here for the storage of wire, poles and other material to be used in the construction of a new telephone line to Haywards and the south, and the improvement and repair of existing lines. Direct connection with Oakland is also to be established, so as to do away with the necessity for switching at East Oakland. Other extensive betterments are planned, in keeping with the growing importance of this section.

A state of subdued excitement prevailed on the streets today as the jury that the Superior Court of Alameda county was holding a session within the town limits. Judge Ellisworth and the jury impanelled to try the condemnation suit of the Western Pacific vs. the Matthews estate, were in town to inspect the proposed route of the new Pacific coast highway. The jury arrived at a fairer estimate of the damage which will result. The party, accompanied by the court officers and counsel for the litigants, came in automobiles, carriages and carriages, and for several hours flew in and out of town, from one portion to another of the property.

BEAVERS AND SEALS READY FOR THE OPENING STRUGGLE

Teams Arrive From Training Quarters Looking Fine and They Should Put Up Hot Game--Gossip.

By T. P. MAGILLIGAN.

With the fan flare of horns, the chugging of the automobiles and a morning parade, the Pacific Coast League season of 1937 will be ushered in at the new baseball park in San Francisco.

Portland and San Francisco will versus each other. In lesser leagues they cross bats, but we're a bit stylish out this way and any time there is an opening we are bound to drape the word "vs" in some way.

Both Portland and San Francisco got in from their training quarters yesterday and both clubs are down to weight. Kid Mohler is an enthusiastic leader and he is chock full of the belief that victory will attend the efforts of his team in the opening game.

McCredie is a game fellow, himself, and although he is working under a handicap he expects to win.

The Beaver crew are happily installed at a hostelry on Sixteenth and Market streets, and they are certainly a colorful looking bunch.

Of course, the Portland nine feels a bit shy on real talent. The absence of Donahue, who shares the honors of being the best catcher in the league, with Charlie Street, will hurt Portland.

McCredie is making every effort he can to get Donahue in the fold, and he believes that he will finally succeed in getting the brother of the great Jiggs of Chicago to join the fold.

Another absentee who is worrying the tall Walter is Henderson, the pitcher. Henderson is holding out with Donahue, and the chances are that if McCredie can induce Donahue to join that Henderson will follow suit.

If McCredie can get these two boys to join his forces he will be in a position to make a strong bid for the pennant the coming season.

Excellent reports continue to come this way of the work of the Oakland team at Santa Barbara. All the boys are doing nicely.

"I expect him to be in a position to make a strong bid for the pennant the coming season."

INTERESTING NOTES ABOUT RACING MATTERS

By LEE DEMIER.

Yesterday's racing program, although featureless, was an interesting one, and despite disagreeable weather conditions a large gathering was in attendance. Favorite players once more experienced the exhilarating sensation of lining up before the cashier's window, as upsets were less frequent and favorites drew down the majority of purses.

Early Tide dropped in from Assot right on edge and although getting away none too well, annexed the opening race with comparative ease. Balade, from the Schreiber barn, ran a smashing good race and out-gamed Galmore for place honors. Exchequer and Memorize made a dismal showing.

Eduardo, after repeatedly knocking at the wire, finally caught the judge's eye. Stover's "bird," quoted at 192 always had the race up his sleeve, and when his rider let him, won as he pleased. Hugh McCowan held on long enough to get the place from Little Joker. Dorthula, one of the good things in the race, started to make a runaway race of it, but soon chucked it up.

Vincenzo, the favorite, experienced very little trouble defeating his field in the third event. The winner was ably ridden by C. Williams and when the race for the wire began, there was nothing else to the race. Invader, another "bird" from the Stover farm, hung on gamely and beat out Watchful for the place.

The dash for three-year-olds and up-

wards proved only a romp for Fireball. "Boots" Durnell's speed marvel was the 8 to 5 favorite and going to the front right from the start. Up-toed his field all the way. Royal Rogue closed with a determined rush and grabbed second place. Show money went to Romaine, who had a stormy voyage. Nappa and Nothing heavily played good things, went glimmering when the pinch came.

Lord Nelson ran right back to his last race and won the six furlong affair in handy fashion. Laura P. M. closed like a cyclone and annexed the place. Water Thrush fell heir to the little end of the purse.

Sungradd had all the racing luck and won the closing race from wire to wire. Massa met with all kinds of interference and could do no better than beat out Flasher Boy for the place.

The Janel N. Handicap which is the feature of today's card, attracted a small but select crowd and gave promise of a feature in a hard fought battle. The remainder of the program consists of large fields, that should prove interesting contests.

Auctioneer George Common is here from Los Angeles.

Turkette Florence is a late arrival from the southern city.

Harry McCarty is here. Enough "sed."

The contingent from the middle west strong with San Remo.

GOSSIP

The ring was burnt up on the win of Fireball.

Charley Commerford (Red) dropped in during late afternoon.

Big Bob Harris of Little Gladstone farm arrived from Assot with a few useful performers.

Jockey Bullman, who was engaged to ride Early Tide did not arrive in time from the baths to make weight and Jockey Knapp was put on the colt.

The Assot crowd won a little easy money on the win of Early Tide.

Dorthula was the good thing that did not materialize. The horse bled.

Eduardo looked the talent yesterday. Stover's horse took a field in the mile and a furlong affair.

Watchful was pounced the best in the mile and a sixteenth event.

Sungradd brought the money home to the many Emeryvilleites yesterday.

With a more vigorous ride Pantoloni would have been closer up.

Thunger McManus, who ran up a nickel to a dime, is making a big book at Williams Park.

Dorando likes the mud best.

LOS ANGELES HIGH SCHOOL WINS MEET FROM OAKLAND

Munn's Grand All-Round Work Was the Feature of the Games--Makes New Record.

The Los Angeles High School athletes were victorious in their dual meet with the Oakland High School team at Los Angeles yesterday afternoon scoring 58 points to 55 for the Oakland team.

Los Angeles victory yesterday gives to them the state championship.

Barring the grand work of Munn, there was little out of the ordinary in the meet. Munn's work was sensational. He annexed six events, making a total of thirty points. He also ran the final lap for the relay team.

Munn's attempt to break the world's record in the shot put was unsuccessful, but he established a new interscholastic record of 50 ft. and 10 inches.

The first event on the programme, the mile run, ended favorably for the North-easters, giving them eight points to work on. This lead was maintained during the first half of the contest, and things looked bad for Los Angeles. Eight points pulled them out of the bad run and gave them a new lease of life.

Munn's thrill accompanied the century dash. Munn winning the event in the fast time of 10:25.

An unpleasant feature of the games was the unsportsmanlike conduct of a small section of the grandstand, the occupants of which indulged in shouts of derision at the Oakland team throughout the meet.

The meet on the whole was a good one, the consistent all-round strength of the Southern team being evident in every event.

Mile run--Hartwell (O.), Mills (O.), 10:25. 120-yard hurdles--Robinson (O.), Johnson (L.A.), Bristol (L.A.), Time, 18:30. 80-yard dash--Munn (O.), Coleman (O.), Goodwin (L.A.), Time, 11:25. 440-yard dash--Goodwin (L.A.), Felgenthal (L.A.), Free (L.A.), Time, 2:15. 880-yard dash--Free (L.A.) and Maddox (L.A.) tied for first, Cook (O.), Time, 2:15. 220-yard dash--Coleman (L.A.), Leher (O.), McDonald (O.), Time, 2:25. 220-yard--Robinson (O.), Bristol (L.A.), Williams (L.A.), Time, 2:25. Hammer throw--Munn (O.), Maddox (O.), Time, 1:15.

ALBERT MUNN

(L.A.) Layne (L.A.), Distances 129 feet. Shotput--Munn (O.), Walbridge (L.A.), Black (L.A.), Distances, 50 feet 10 inches. Pole vault--Munn (O.), Phelps (L.A.), Smith (O.), Height, 10 feet 4 inches. Broad jump--Munn (O.), Coleman (L.A.), Smith (O.), Distance, 21 feet 10 inches. High jump--Munn (O.), Burke (L.A.), McCready (L.A.), Height, 5 feet 2 inches. Relay--Los Angeles won, Time, 1:38:35.

MIKE RILEY IS MEMBER OF DOWN AND OUT CLUB

Philanthropic Promoter of Tonopah, Who Gives His Money Away Backwards, Meets With Reverses.

By EDDIE SMITH.

Mike Riley's third flyer at the pugilistic game is due to be about as successful as his second and to make it worse it has evidently put him in so bad with his partners that they are clamoring for a receiver to be appointed to run the gambling and dance hall until such time as the courts decide the cases pending against him for larceny and other bills contracted through the handling of the Gans-Herman fight.

Mike's first flyer was the Gans fight and for which he offered a twenty thousand purse, this placed him on the shelf with a few other good things for all the lights that could be placed on to be a sucker contest was the Herman-Gans fight. Herman is about

to go with a championship battle. They even very generously offered to fight for anyone that would offer \$20,000 or more for the contest. As a lesson in financial sense that is the limit and would make Tom Lawson look very sick. Lewis is only a fairly good man and has little to recommend him as a proper opponent for the negro. The best that he could do was to have a shade the best of Mike (Twin Sullivan), who Gans bested with the greatest ease. The dispatch looks queer to me in that the articles call for the men to weigh 133 pounds ringside. In the first place, I have every reason to believe that Lewis is unable to make the weight and the fact that he wanted 133 at ringside and Gans refusing is a puzzle.

The much talked about game between Alameda and Oakland Polytechnic High which was scheduled for last Saturday did not come off owing to a misunderstanding between the managers of the respective teams.

"Poly" thought it was understood that all league games, except Centerville, must be played at Freeman's Park, so the team went out there and waited for the Alameda crowd to show up. Meanwhile the Alameda team was waiting in Alameda for "Poly" to show up, and as they did not do so, were getting ready to claim the game by default, just what "Poly" was getting ready to do.

It is just a result of poor management on the part of the managers of the teams, and next time grounds will be agreed upon before anything else is done.

SANTA CLARA WINS HARD GAME

The Santa Clara College nine applied a unit of kalsomine to the Stanford nine at Stanford yesterday afternoon, winning the game by a score of 11 winning the game by a score of 11 winning the game by a score of 11.

Kilburn, the star baseman of the Catholic college, pitched great ball, and was well-nigh invincible, and he let the Cardinal team down without a hit.

The infield of both teams showed pretty form and many startling plays were pulled off by the collegians. Lanagan used three twirlers in the box. Thiele, Goodell and Witmer.

Shaffer scored Santa Clara's lone tally in the eighth inning. The line up: Stanford--Stott, Daily.

Stanford--Stott, Daily. Shaffer, first base; Cadwalader, second base; Sampson, shortstop; Fen-ton, third base; Owen, left field; Wirt, center field; Scott, right field.

Santa Clara--Mc Schaffer, catcher; Kilburn, pitcher; Broderick, first base; Twophy, second base; A. Shaffer, shortstop; Friene, third base; Lappin, left field; Salsburg, center field; Watson, right field.

"Poly" thought it was understood that all league games, except Centerville, must be played at Freeman's Park, so the team went out there and waited for the Alameda crowd to show up. Meanwhile the Alameda team was waiting in Alameda for "Poly" to show up, and as they did not do so, were getting ready to claim the game by default, just what "Poly" was getting ready to do.

It is just a result of poor management on the part of the managers of the teams, and next time grounds will be agreed upon before anything else is done.

The much talked about game between Alameda and Oakland Polytechnic High which was scheduled for last Saturday did not come off owing to a misunderstanding between the managers of the respective teams.

BILLIARD NEWS

The three-cushion tournament at the Oakland Billiard Parlor was practically finished last night when the two leaders, Harris and Lehman, met. The hall was completely filled and many were unable to see the game, which proved the great interest created by these contests among our local players. There was nothing to it but Harris, who got Lehman's nerve from the start and won as he pleased to the great surprise and disappointment of the spectators who had looked for a battle royal. However, Ernest has made a remarkable showing throughout, winning all previous games and disposing of his opponents with comparative ease and it is extremely doubtful that Harris could repeat his victory. By winning this game, Harris not only won first prize (\$20), but posed Lehman out of the high grand average winning the Brunswick-Balke prize cue. Lehman gets second prize (\$15), King third (\$9), and fourth prize will be settled tonight, when Jones and Peck play off their tie game.

The score: Harris, 25; average 26-54. Lehman, 10; average 10-54. Referee, Peck. Scorer, Jones.

The Young American, second team of the St. Joseph's Academy, on Wednesday afternoon defeated the Whittier grammar school of Berkeley by the score of 14 to 7.

The Americans would like to hear from any of the fast teams of Oakland and Alameda. And they are anxious to get a game from the Young Americans of West Oakland.

The crack Young American baseball team of West Oakland today defeated the Central by a score of 10 to 8. Only features of the game was the pitching of Mengers and their little lefty, Pease, was there to get everything that came his way. The Americans would like to hear from any teams averaging 15 years and they prefer a game from the Grand School.

NEW SPORT IS BECOMING POPULAR

The sport that has set San Francisco crazy--association football on roller skates--is having its introduction in Oakland and from the present indications bids fair to create as much of a furore as it did in the sister city across the bay.

The first game was played at the Idora Park skating rink last Monday night and the immense throng that witnessed it manifested no hesitancy in falling in love with it "at first sight."

If the deafening applause that greeted the players and the excited shouts that followed the many particularly sensational plays counted for anything.

This initial game was between the Idora Park Wanderers and the Oakland High School Independents, and was won by the Wanderers after a hot fight by the close score of two goals to none.

The game is played in two ten-minute halves, with an intermission of two minutes and the precariousness of the attempts to pass the ball forward by the various methods used by the skaters keeps the spectators on tenterhooks, while the members of the fair sex are said to experience so many delightful thrills and to grow cold with alarm so often that they forget to ask whether the ice cream booth has closed for the night or not.

The Wanderers and Independents are to meet again tonight at the Idora Park rink, and the return contest promises to be even more exciting than the introductory one. The line-up is to be as follows:

Wanderers--Fred Newcomb, captain; George Peterson, Fritz Brause, forwards; Frank Bignami, half-back; Ord Arnold, full-back; F. Glionetti, goalkeeper; T. J. Alberg, substitute.

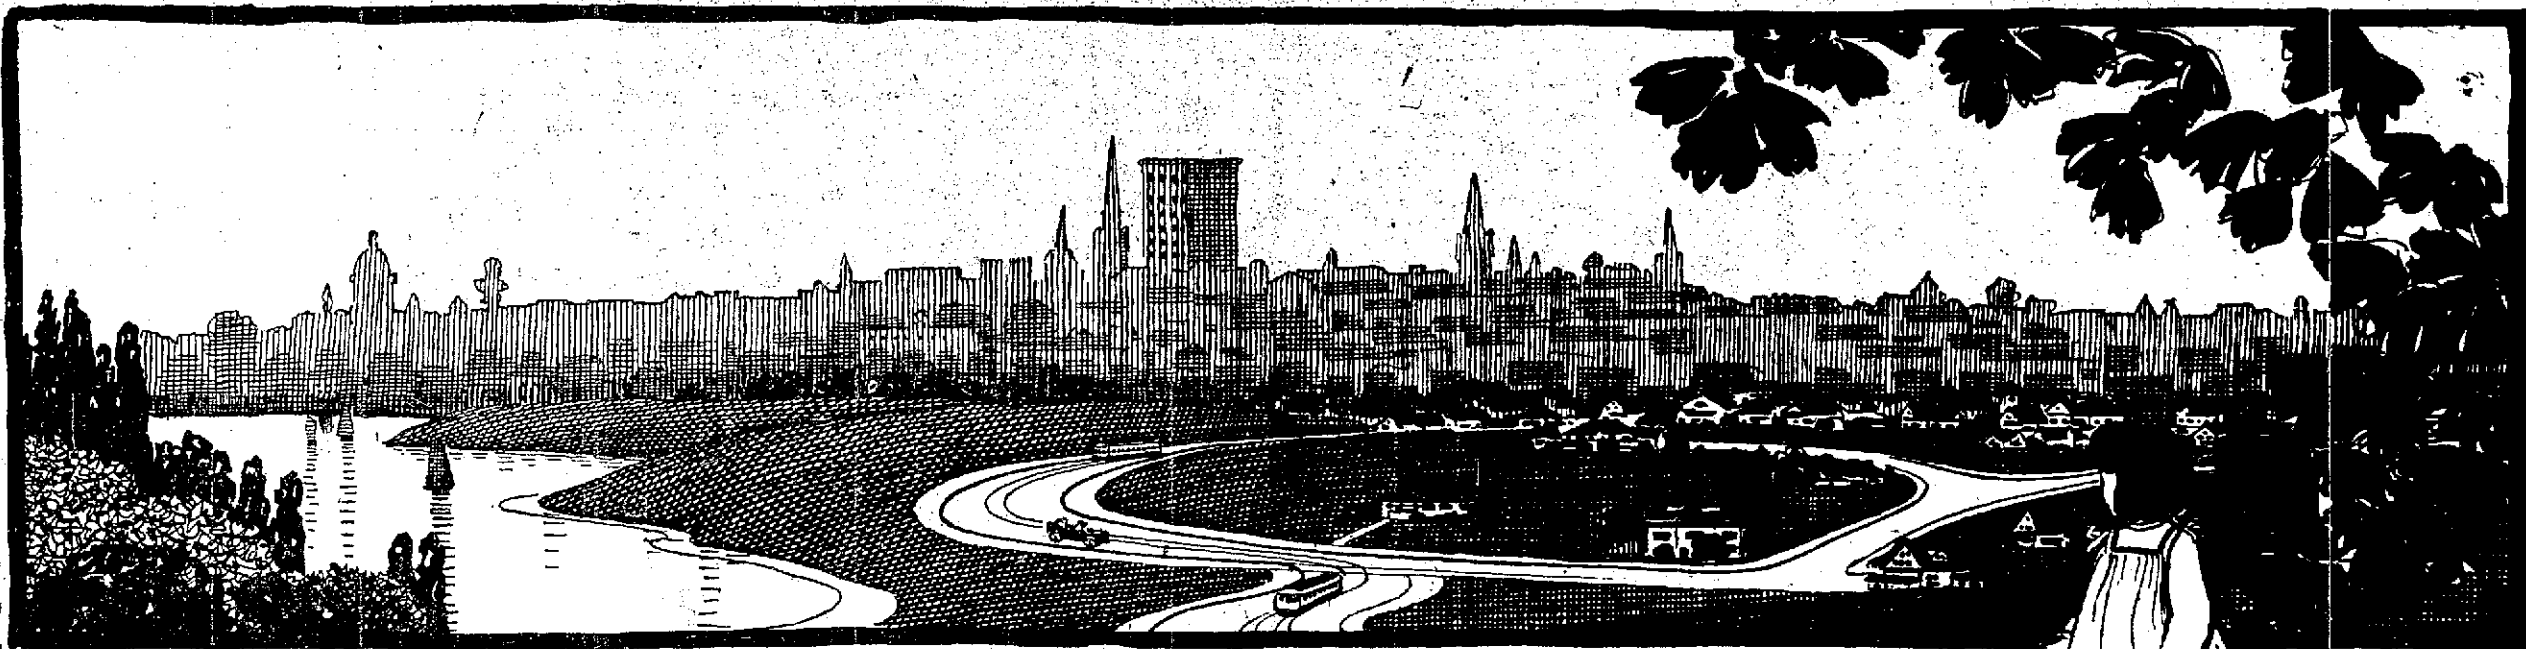

Independents--William Reed, captain; Arthur Bull, Alfred Wallace, forwards; Phil Esparico, half-back; Pinkham, full-back; Percy Poole, goalkeeper; Barber, substitute.

Mike Donlin, the Santa Cruz ball player, who has been one of the stars of the major league for many seasons, has announced his retirement from the game.

Donlin could not come to terms with the New York management this season, and the non-agreement between Donlin and the club is responsible for the retirement from the game.

Pat Hebeau discovered Donlin so far as major league baseball is concerned. At the time Donlin was considered a great pitcher.

As a twister Donlin was very mediocre. He also played the line of the St. Louis team for a time, and was a failure in

GREAT INTEREST IN OUR GREAT NEW TRACT EAST PIEDMONT HEIGHTS

(ON THE BOULEVARD)

To Be Placed on Sale Saturday, Tomorrow, at 1 p. m.

(ON THE PROPERTY)

Do You Realize What the Word "Last" Signifies?

It means that when this tract is sold out, as it certainly will be before many weeks, the cream of the high-class residence sites in the City of Oakland will be off the market! Oakland may grow—it will grow—to half a million population in a few years, but there will be no more districts like this offered for sale. Think of it! Eight minutes by car from the center of the City, on beautiful hill slopes with park places and drives, all improvements, matchless view, proximity to parks and lakes, on the Key Route Extension, and approached by a broad Boulevard, perfection for autos. How such a tract as this—the very acme of all that is desirable for a residence place—happened not to have been offered for sale before is a mystery to many.

A Los Angeles Real Estate Man

Saw our advertisement in Sunday's paper, and like scores of other people came into our office to investigate. When he had seen the map of the property and when we had told him at what prices we were going to sell it (next Saturday, remember) he was absolutely astonished. "Why, do you know," he said, "in Los Angeles, property twice as far from the center of the city and not half so well situated is selling for twice as much per front foot. How can you do it?" We said: "The growth of Oakland has been so tremendously rapid that real estate values have not yet begun to catch up with this great growth. But they will." We ask YOU—Why not share in this rise in the value of property that is absolutely certain. Why should you not gain as well as the next man?

We Do Not Want Speculators to Buy

All of this property. We would much rather see the home-builder or home-maker take a large share in the beautiful sites of East Piedmont Heights. We would rather see him make big profits while at the same time getting a home and adding to the growth of the city, than to see the speculator reap all the profits. Therefore we particularly urge professional men with some money laid by and steady incomes to consider the merits of East Piedmont Heights. We guarantee it to be in a few years the elite residence portion of Greater Oakland—one of the most beautiful places of residence in the whole West.

We Have No Competitors

We own the best land—no real estate dealer has for sale any such close-in tract. The tracts you see advertised are for the most part "out in the country," miles from theaters and shopping districts. East Piedmont Heights is as near Fourteenth and Broadway, Oakland, as Van Ness and Sutter is to The Call building. When you consider that fact, is it not clear that the lots we are selling MUST advance in value by leaps and bounds? We repeat—as near as Van Ness to The Call building in a city that is already two-thirds as large as San Francisco! And possessing the same qualities that have made Pacific avenue the residence street of San Francisco—sightliness and marine view!

We Point With Pride

To our record. Not one customer who has purchased lots from us in our Piedmont tracts would today sell for the price he paid or anything like it. IS not this a great thing to be able to say? And it practically means that when you buy lots from us you take no risk whatever. No risk—big profits—that is the proposition in a nutshell.

We Want Again to Caution Our Customers

These lots will certainly be sold with great rapidity. One or two days' sale may clean out the tract. The only way in which you can be SURE of a good buy and a fine money-making bargain is to buy the first days of the sale. Remember that Piedmont-by-the-Lake, the sister tract to East Piedmont Heights, was nine-tenths sold out in the first two days.

MIXED BODIES FOR FUNERALS

Undertaker Makes Mistake and
Mourners Weep Over
Wrong Corpses.

TACOMA, Wash., April 5.—Hearers at the railroad station really to convey the remains to their last resting place, towns in mourning over the demise of two well-known young men, and nearly the entire population of both places in readiness to escort the bodies to the cemeteries—this was the situation in Montesano and Chehalis Tuesday afternoon. Arrangements were changed when the corpses were removed from the train and it was discovered that the Tacoma undertaker had made a mistake and switched the bodies, sending the one intended for Montesano to Chehalis and the one for whom Chehalis was mourning to Montesano. The two towns are thirty miles apart.

In Montesano the mourners had assembled to await the arrival of the body of M. G. Wade, who died of chronic heart disease at the asylum for the insane at Stellacom. The mourners at Chehalis were expecting the remains of W. W. Mintz, who had died at Stellacom of insanity.

Today the furniture, the fireplaces and the structural parts of the house are being offered, and on Thursday, Friday and Saturday of next week, White's paintings will be put under the hammer at Mendelssohn hall.

STATE SCORES POINT ON DEFENSE IN RUEF CASE

Two Jurors Not on the Assessment Roll
Are Dropped, Against Strong Protest
of Curly Boss' Lawyers.

SAN FRANCISCO, April 5.—Five taxsmen are now tentatively passed by counsel on both sides in the trial of Abe Ruef for extortion. This, however, does not mean that these will be selected to sit in the case, because neither side has as yet, exercised its right to peremptory challenges. This right will not be exercised until the jury box has been filled by twelve men who have been passed by both sides. The five tentative jurors are as follows:

J. H. Dumbrell, 1812 Broadway.
Abraham Hochwald, 2134 Post street.
Ellsworth E. Johnson, 2081 Bush street.
William D. Knight, 21 Parnassus avenue.
Douglas S. Watson, 2710 Scott street.

AFTERNOON SESSION.

When Judge Dunne's branch of the Superior Court reconvened yesterday afternoon in the trial of the case of Abraham Ruef, charged with extortion, Attorney Johnson for the prosecution said he desired to ask Taxsmen Bradstreet, who had been passed, a few

questions. He then asked Bradstreet if his name appeared on the assessment roll. The taxsmen said he thought it did because he had paid taxes on personal property for many years.

THE TAXROLLS.

Deputy Tax Collector Berger produced a couple of the Tax Collector's books, showing the personal tax and in response to questions by Attorney Johnson said that Bradstreet's name did not appear on the last tax roll.

The defense assumed that the prosecution felt Bradstreet was in favor of the defendant and had resorted to these tactics to save him from being excused.

TRY TO SAVE BRADSTREET.

Ach accordingly requested Berger to see if the name had not been entered upon the rolls as Bradstreet. Berger did as requested and reported that the roll did not contain the name "Bradstreet."

Ach stated that personal taxes were frequently paid to traveling collectors and that the books, as a consequence, could not show such collections.

BRADSTREET'S STORY.

Bradstreet then stated that he remembered he had paid his personal taxes, the last time, to a collector who had called at the door of his house.

Judge Dunn asked Bradstreet if he had preserved his receipt and Bradstreet replied that he had destroyed it. Johnson said that it was not a question of whether the taxes had been paid under peculiar circumstances, but whether or not the taxsmen's name was on the roll.

ALLOWED THE CHALLENGE.

Judge Dunn took that view of the matter and allowed the challenge of taxsmen Bradstreet, which had been made by Attorney Johnson for the prosecution.

Ach denied the challenge and the defense took an exception.

The same proceedings were resorted to in the matter of John Meyer, 1157 Hayes street, with the result that his services were also dispensed with as a juror.

MEYER'S CASE.

Meyer said that he had filled out his statement of personal property and filed the same with the Assessor, but he had not paid the tax.

Berger testified that the name of Julius Levy was not on the assessment roll. Ach asked that Berger examine the roll to see if the taxsmen's name could not be hidden under the name "Mayer," "Meyer," "Meyers," "Maier" or "Meier."

Berger looked over the roll, but could not find any person having any of those names on the roll. Meyer was challenged by the prosecution. The challenge was denied by the defense, but was allowed by the court.

Maurice Levy was excused by the prosecution on the ground admitted by himself that he was not on the assessment roll. The defense objected, but the challenge was allowed by the court.

MEN PASSED.

At that time the taxsmen passed by both sides—Messrs. J. H. Dumbrell,
